Dear Mr. Feldman:

I wish to express my opposition to Walmart having a bank. This is not in the best interests of our citizenry or our banking industry. I strongly urge that you do not allow Walmart to also be in the banking business.

Walmart is hurting all our national home owned businesses. It is destroying many individual businesses. We do not need them in the banking business.

I serve as a director on the board of a small community bank and I, and many others I know feel very strongly about this

Sincerely
Lorna Ross
