

application (FCC Form 601). When initially filing the long-form application, the winning bidder will be required to advise the Commission whether it intends to seek a tribal lands bidding credit, for each license won in the auction, by checking the designated box(es). After stating its intent to seek a tribal lands bidding credit, the applicant will have 180 days from the close of the long-form filing window to amend its application to select the specific tribal lands to be served and provide the required tribal government certifications. Licensees receiving a tribal lands bidding credit are subject to performance criteria as set forth in 47 CFR 1.2110(f)(3)(vi).

F. Default and Disqualification

228. Any winning bidder that defaults or is disqualified after the close of the auction (i.e., fails to remit the required down payment within the prescribed period of time, fails to submit a timely long-form application, fails to make full payment, or is otherwise disqualified) will be subject to the payments described in 47 CFR 1.2104(g)(2). The payments include both a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a license covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less.

229. The percentage of the applicable bid to be assessed as an additional payment for defaults in a particular auction is established in advance of the auction. Accordingly, in the *Auction 78 Comment Public Notice*, the Bureau proposed to set the additional default payment for this auction at ten percent of the applicable bid, consistent with Auctions 66 and 71. The Bureau received no comments on this proposal, and therefore, adopts the proposal.

230. Finally, in the event of a default, the Commission may re-auction the license or offer it to the next highest bidder (in descending order) at its final bid amount. In addition, if a default or disqualification involves gross misconduct, misrepresentation, or bad faith by an applicant, the Commission may declare the applicant and its principals ineligible to bid in future auctions, and may take any other action that it deems necessary, including institution of proceedings to revoke any existing licenses held by the applicant.

G. Refund of Remaining Upfront Payment Balance

231. All applicants that submit upfront payments but after the close of the auction are not winning bidders for a license in Auction 78 may be entitled to a refund of their remaining upfront payment balance after the conclusion of the auction. All refunds will be returned to the payer of record, as identified on the FCC Form 159, unless the payer submits written authorization instructing otherwise.

232. Refunds will not be made until after the conclusion of bidding because providing refunds could disclose the activity of particular applicants which would be inconsistent with the anonymous bidding procedures applicable to Auction 78. For these reasons, applicants should not request refunds until after the close of the auction.

General Description of Collection: The collection involves the submission of information on various forms by contractors who wish to do business, have done business, or are currently under contract with the FDIC. The information is used to: Enter contractors on the FDIC's nationwide contractor database, the National Contractor

System (NCS); ensure compliance with established contractor ethics regulations (12 CFR Part 366); obtain information on a contractor's past performance for proposal evaluation purposes; review a potential lessor's fitness and integrity prior to entering into a lease transaction; provide notice and authorization for obtaining consumer reports for employment purposes or performance under a contract; and document contractor change requests.

2. *Title*: Account Based Disclosures in Connection With Federal Reserve Regulations E, CC, and DD.

OMB Number: 3064-0084.

Frequency of Response: On occasion.

Affected Public: State chartered banks that are not members of the Federal Reserve System.

Estimated Number of Respondents: 5,300.

Total Annual Burden: 920,589 hours.

General Description of Collection:

This FDIC information collection provides for the application of Regulations E (Electronic Fund Transfers), CC (Availability of Funds), and DD (Truth in Savings) to State nonmember banks. Regulations E, CC, and DD are issued by the Federal Reserve Board of Governors (FRB) to ensure, among other things, that consumers are provided adequate disclosures regarding accounts, including electronic fund transfer services, availability of funds, and fees and annual percentage yield for deposit accounts. Generally, the Regulation E disclosures are designed to ensure consumers receive adequate disclosure of basic terms, costs, and rights relating to electronic fund transfer (EFT) services provided to them so that they can make informed decisions. Institutions offering EFT services must disclose to consumers certain information, including: initial and updated EFT terms, transaction information, the consumer's potential liability for unauthorized transfers, and error resolution rights and procedures.

Like Regulation E, Regulation CC has consumer protection disclosure requirements. Specifically, Regulation CC requires depository institutions to make funds deposited in transaction accounts available within specified time periods, disclose their availability policies to customers, and begin accruing interest on such deposits promptly. The disclosures are intended to alert customers that their ability to use deposited funds may be delayed, prevent unintentional (and costly) overdrafts, and allow customers to compare the policies of different institutions before deciding at which institution to deposit funds. Depository

institutions must also provide an awareness disclosure regarding substitute checks. The regulation also requires notice to the depository bank and to a customer of nonpayment of a check.

Regulation DD also has similar consumer protection disclosure requirements that are intended to assist consumers in comparing deposit accounts offered by institutions, principally through the disclosure of fees, the annual percentage yield, and other account terms. Regulation DD requires depository institutions to disclose yields, fees, and other terms concerning deposit accounts to consumers at account opening, upon request, and when changes in terms occur. Depository institutions that provide periodic statements are required to include information about fees imposed, interest earned, and the annual percentage yield (APY) earned during those statement periods. It also contains rules about advertising deposit accounts.

Although the FRB regulations require institutions to retain evidence of compliance with the disclosure requirements, the regulations do not specify the types of records that must be retained.

3. *Title*: Prompt Corrective Action.

OMB Number: 3064-0115.

Frequency of Response: On occasion.

Affected Public: All insured depository institutions.

Estimated Number of Respondents: 19.

Estimated Time per Response: 4 hours.

Total Annual Burden: 76 hours.

General Description of Collection: The Prompt Corrective Action provisions in Section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o) permits and, in some cases requires, the Federal Deposit Insurance Corporation (FDIC) and other federal banking agencies to take certain supervisory actions when FDIC-insured institutions fall within one of five capital categories. They also restrict or prohibit certain activities and require the submission of a capital restoration plan when an insured institution becomes undercapitalized.

Request for Comment

Comments are invited on: (a) Whether this collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodologies and assumptions used; (c) ways to enhance the quality, utility,

and clarity of the information to be collected; (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start up costs, and costs of operation, maintenance and purchase of services to provide the information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the collection should be modified prior to submission to OMB for review and approval. Comments submitted in response to this notice also will be summarized or included in the FDIC's requests to OMB for renewal of this collection. All comments will become a matter of public record.

Dated at Washington, DC, this 23rd day of May, 2008.

Federal Deposit Insurance Corporation.

Assistant Executive Secretary.
