Subject: special assessment

As an employee, I am upset about the proposal. How is it fair when our bank plays by the rules, we get treated like other irresponsible financial institutions? What does this mean for the employees if our bank gets a \$600,000.00 bill? I feel that it will not be good, and I thought we were trying to make the economy better, not worse. Are we going to have to worry about the status of our jobs?

Concerned employee,

Brandi Schoen
