Subject: Special Assessment

Due to others acting irresponsible our banks are going to be punished. I am outraged at this \$600,000 special assessment that may be imposed upon our banks. Not only is it unfair but our banks should not have to suffer do to others wrong doings. Punishing our banks is not the answer to pulling our economy out of this mess. I feel this will not only affect our banks severely but our employees as well. It is not fair that that we would have to incur a burden such as this because others could not follow the rules.
