Subject: Attn: Chairman Bair - No to Toxic Assets Proposal
Importance: High

Dear Chairman Bair,

I object to the proposal to use FDIC resources to cover "toxic assets". I and many others just moved our savings from the stock market to FDIC protected CDs, and now the administration is proposing to put the FDIC's assets at risk and our last hope of saving our investments with it. I have asked my senators to propose legislation to forbid this reckless use of FDIC assets.
