Dear Robert Feldman:

Not only will this new proposal hurt this bank, it will affect my community as well. With the costs that will come with this, we will have to find other ways to cut costs, which may in turn hinder our ability to sponsor activities in our community or make donations. I believe that my bank is in a great position to help this economy recover. Although we are not a large bank, I believe that we are exceptional. In our community we are rated the top bank. I personally have been working for this bank for almost 4 years. I believe that if this proposal goes through, some of us may become unemployed. Worse yet, I feel that there might be a possibility of our bank going under if this proposal is passed. I am a hardworking mother of two. I have a 4 year old and a 7 month old. Would you like to be in my shoes? Not knowing what the impact of this will have on your life? On your family? On your co workers? Your children? Life is hard enough with this recession. I urge you to take into consideration what I have said. Thank you for your time.

Sincerely,

Melissa Fox
