Subject: [EXTERNAL MESSAGE] La Cocina's Formal Written Comment - RIN 3064-AF81

Hello,

Just wanted to send a note to say it's essential that race and ethnicity data be expressly included in the revisions. As a community organization focused on serving BIPOC and Immigrant entrepreneurs, we at La Cocina feel the effects of our government's race-based policies (like redlining) in daily ways. Race and ethnicity were major factors in those past laws and need to be major factors in the ways that those laws are corrected by new laws. It's an offensive omission that I hope is fixed.

Gracias!
Leticia
