 EXECUTIVE SECRETARY

**RE: RIN number 3064-AC50**

Dear Sir/Madam:

The Community Bankers Association of New York State\* strongly urges the FDIC to raise the threshold for the streamlined examination process to \$1 billion. Increasing the asset amount would not have a significant impact on CRA activities in our communities. It would, however, provide regulatory relief for many institutions at a time when compliance with other major national priorities is placing increasing regulatory burdens on smaller institutions.

The FDIC's proposal to add a mandatory community development performance criterion as an additional component provides a rational balance for smaller institutions. Under this proposal, banks can adapt their lending, investing, and service activities to the opportunities in their own assessment area as well as to the bank's own strengths. An institution can engage in one or more, as opposed to all, of the activities.

We applaud the FDIC's initiative in this area and encourage your action on this proposal.

Sincerely,

*Maribel Donath*
