(a) Public Section

The Shoko Chukin Bank, Ltd (the "Covered Company") has developed a Resolution Plan ("RP") to address the requirements for a resolution under the joint Board of Governors of the Federal Reserve System ("FRB") and Federal Deposit Insurance Corporation ("FDIC") rule implementing Section 165(d) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "SIFI Rule").

The primary goal of the RP is to ensure a rapid and orderly resolution in a manner that would not pose any serious adverse effects on U.S. financial stability while maximizing the value of the Core Business Lines ("CBLs"), providing the continuity of the Critical Operations ("COs"), and facilitating the orderly wind-down of the relevant Material Entities ("MEs").

There have been no material changes since the submission of our 2015 Tailored Resolution Plan.

(1) The names of material entities

The Covered Company was established in 1936 in Japan to conduct businesses necessary to facilitate financing for small and medium-sized enterprise cooperatives, other organizations that primary consist of small and medium-sized enterprises ("SMEs") and their members. The Covered Company has JPY218.7 billion in capital, and the Japanese government has subscribed JPY101.6 billion. The Covered Company has 100 offices in Japan and 4 overseas offices including The Shoko Chukin Bank, Ltd., New York Branch (the "New York Branch"), which the Covered Company has identified as its only ME.

The New York Branch was established in 1986 in New York and its primary business is to provide lending services to SMEs. The New York Branch facilitates foreign business activities for the Covered Company's Japan-based clients in the U.S., Canada and Mexico. As of March 31, 2018, the New York Branch has \$466million in total assets.

The Covered Company has identified the New York Branch as the sole ME in the U.S. because it provides access to the U.S. financial markets.

(2) A description of core business lines

Pursuant to the analysis below, the Covered Company has determined that it does not have any operations or activities in the United States that would be a CBL as defined in the SIFI Rule.

While the Covered Company identified its loan business as global key business, the New York Branch's loan business represented less than 1% of the revenue and assets of that global key business line for the year ended March 31, 2018.

Therefore, the Covered Company has not designated any CBLs.

| | | Metrics | | | |
|---------------|---------------------|-------------------|----------------------|------------------|----------------------|
| | | Revenue (\$mm) | % of global total | Assets (\$mm) | % of global total |

(4) A description of derivative activities and hedging activities

The Covered Company engages in derivatives transactions such as interest rate swaps and currency swaps as part of its asset-liability management to hedge interest rate and foreign exchange rate fluctuation risks for securities, bonds, borrowings and foreign currency loans. Hedge accounting is adopted for the derivative transactions that satisfy the requirements. The effectiveness of the hedge

is evaluated by comparing the value of hedged items and hedge instruments at the start of the hedge and at the present.

The Covered Company also executes interest rate swaps, currency swaps, bond futures, foreign exchange forwards etc. in order to support clients' hedging needs and for the purpose of creating profit from interest rate or foreign exchange rate fluctuations.

(9) A description of the corporate governance structure and processes related to resolution planning

The Covered Company is committed to high standards of governance and management. The Covered Company has established a robust corporate governance structure for the development, maintenance, implementation, and filing of the RP. For purposes of the 2018 RP, the Covered Company's governance leverages existing roles and responsibilities established for its regulatory issue management framework.

The RP will be reviewed and updated on an annual basis, based on year-end figures of the previous financials. Upon any event, occurrence, change in conditions or circumstances, or other change that results in, or could reasonably be foreseen to have, a material effect on the RP of the Covered Company (e.g. divestment of a significant business), the Covered Company will, as set forth in the SIFI rule, file a simple notice with FRB/FDIC and address such material event in the next annual RP or, if so jointly determined by FRB/FDIC, in the more frequently updated RP as appropriate.

The RP has been developed and will be approved by the President, who is a Representative Director and Executive Officer of the covered company and who is a delegee acting under the express authority of the board of directors of the covered company to approve the RP, at least once per year before the submission of the plan.

The 2018 RP submitted to the FRB and the FDIC has been formally reviewed and approved on December 12, 2018 – in accordance with the provisions set forth by the resolution of the Covered Company's Board of Directors – by Mr. Masahiro Sekine, the President (Representative Director) & President and Executive Officer.

(10) A description of material management information systems

The primary responsibility of the New York Branch's Management Information Systems ("MIS") is to provide comprehensive information to the New York Branch's Senior Management to manage the branch effectively and efficiently.

The New York Branch's MIS consist of information security reporting, risk reporting, operational reporting, financial reporting and management reporting and regulatory reporting.

(11) A description, at a high level, of the covered company's resolution strategy, covering such items as the range of potential purchasers of the covered company, its material entities and core business lines

Upon resolution, the New York Banking Law authorizes the Superintendent of the New York State Department of Financial Services (the "Superintendent") to take possession of and liquidate the New York Branch. The Superintendent may also take possession of the New York Branch if the Covered Company is in liquidation or there is reason to believe that the New York Branch will not be able to meets it creditor's needs or obligations.

The Covered Company believes that the resolution of the New York Branch would be orderly, given the simple nature of its activities, and the high quality liquid assets on its books. Therefore, there is likely to be no impact to the broader U.S. financial system.
