Guidance for Completing the Diversity Self-Assessment

INTRODUCTION

The Diversity Self-Assessment of FDIC Regulated Financial Institutions instrument was developed to assist institutions in conducting a self-assessment of their diversity and inclusion program envisioned by the *Interagency Policy Statement Establishing Joint Standards for Assessing the Diversity Policies and Practices of Regulated Entities* (June 10, 2015). The use of this self-assessment instrument is voluntary. Financial institutions may use this instrument or their own assessment instrument to respond to the Policy Statement.

The FDIC will use the information provided by its regulated financial institutions to monitor progress and trends in the financial services industry with regard to diversity and inclusion in employment and contracting activities. Institutions submitting information may designate such information as **confidential commercial information** and the FDIC will follow the Freedom of Information Act in the event of a request for information.
