POLICY

The FDIC, through its Minority and Women Outreach Program (MWOP), strongly encourages FDIC program managers, contracting officers, and prime contractors to include qualified minority-and-women-owned businesses (MWOBs) to the maximum extent possible in all contracts. The Diversity and Business Inclusion Branch is responsible for conducting outreach activities focused on providing information regarding FDIC's contracting activities to minorities-and- women-owned businesses including financial institutions, investment banking firms, underwriters, accountants, and providers of legal services.

PURPOSE

The purpose of the FDIC Minority and Women Outreach Program is to ensure that minorities-and-women-owned businesses with the requisite skill sets are given the opportunity to participate fully in all contracts entered into by the FDIC.

FDIC INFORMATION RESOURCE WEBSITES

The FDIC maintains a variety of information on its website, www.fdic.gov. Below is a brief overview of information on the website that may be of interest to you.
