Proposed 2012 Budget

December 7, 2011

FDIC Planning and Budgeting Process

Overview

- **Total proposed 2012 budget is down 15.4% from 2011 due to a substantial reduction in failure activity.**
- **Authorized staffing is reduced by 565 positions (6%) from current 2011 authorization.**
- **Increased resources are included for implementation of new Dodd-Frank Act responsibilities.**
- **Contingent resources are included to ensure readiness in case economic conditions deteriorate.**

Major 2012 Resource Changes

- **Resolutions/Receivership Management**
 - 462 DRR positions/119 other positions are eliminated (all non-permanent).
 - Funding for contractor services is reduced by \$375 million.
 - The temporary West Coast and Midwest Satellite Offices will close in January and September 2012, respectively.

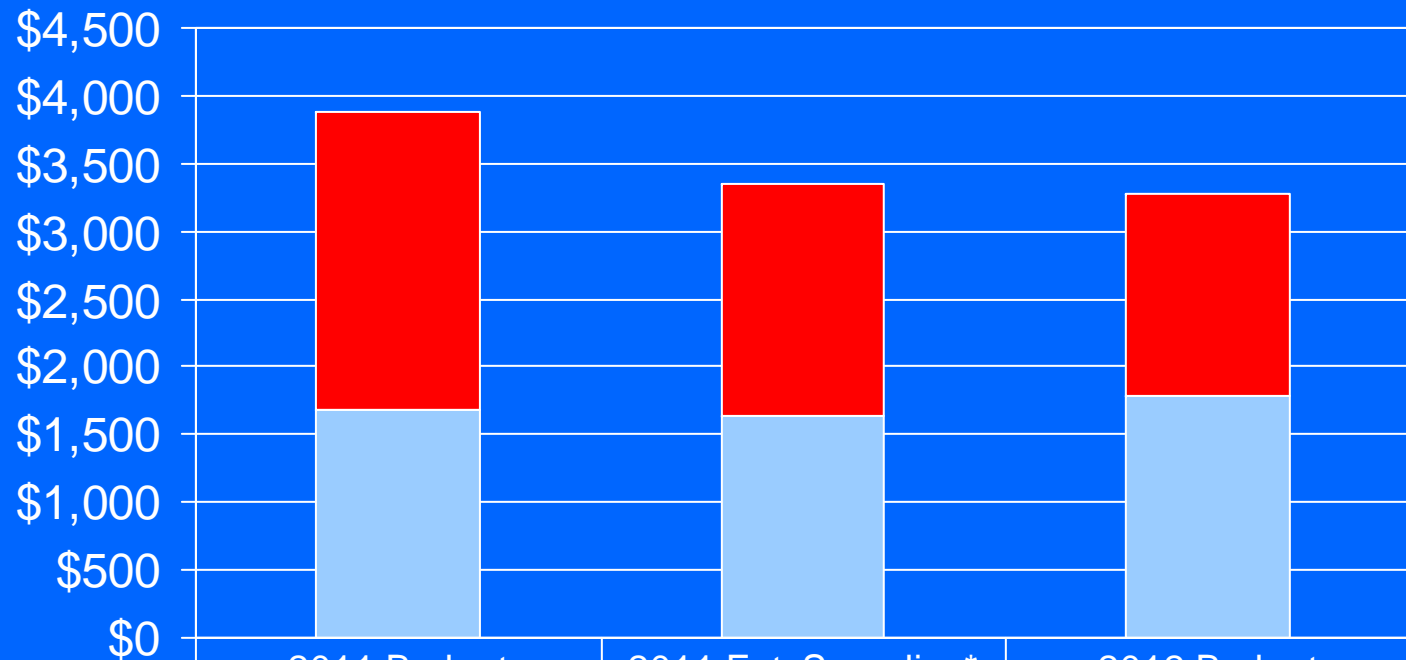

- **Supervision**
 - The number of problem/unfavorably rated institutions appears to have peaked, but limited changes are yet reflected in authorized staffing due to the continuing high number of such institutions.
 - 28 permanent positions are added for supervisory responsibilities transferred from OTS (state-chartered thrift institutions).

- **Complex Financial Institutions**
 - Resource requirements continue to be refined as new FDIC responsibilities and operational requirements become clearer.
 - 24 permanent positions are added for institutional monitoring and resolution planning.
 - Contingent contractor funding is provided.

- **Office of Corporate Risk Management established with 11 permanent positions.**
