SUPPLEMENTARY INFORMATION:

I. Policy Objectives

This interim final rule adjusts the maximum limit for CMPs according to inflation as mandated by Congress in the 2015 Adjustment Act.¹ The intended effect of annually adjusting maximum civil money penalties in accordance with changes in the Consumer Price Index is to minimize any distortion in the real value of those maximums due to inflation, thereby promoting a more consistent deterrent effect in the structure of CMPs. Other technical changes to 12 CFR Part 308 are intended to improve the transparency of the regulation and to assist readers in quickly identifying the applicable CMP amounts.

II. Background: Current Regulatory Approach

The FDIC assesses CMPs under section 8(i) of the Federal Deposit Insurance Act (FDIA), 12 U.S.C. 1818, and a variety of other statutes.² Congress established maximum

² See, e.g., 12 U.S.C. 1972(2)(F) (authorizing the FDIC to impose CMPs for violations of the Bank Holding Company Act of 1970 related to prohibited tying arrangements); 15 U.S.C. 78u-2 (authorizing the FDIC to impose

penalties that could be assessed under these statutes. In many cases, these statutes contain multiple penalty tiers, permitting the assessment of penalties at various levels depending upon the severity of the misconduct at issue.³

In 1990, Congress determined that the assessment of CMPs plays “an important role in deterring violations and furthering the policy goals embodied in such laws and regulations” and concluded that “the impact of many civil monetary penalties has been and is diminished due to the effect of inflation.”⁴ Consequently, Congress required federal agencies with authority to impose CMPs to periodically adjust by rulemaking the maximum CMPs which these agencies were authorized to impose in order to “maintain the deterrent effect of civil monetary penalties and promote compliance with the law.”⁵ Under the 1990 Adjustment Act, the FDIC adjusted its CMP amounts every four years, most recently in 2012.⁶

In 2015, Congress revised the process by which federal agencies adjust applicable CMPs for inflation.⁷ Under the 2015 Adjustment Act, the FDIC is required to (1) adjust the CMP levels with an initial catch-up adjustment through an interim final rulemaking and (2) make subsequent annual adjustments for inflation. The FDIC must publish an interim final rule with initial penalty adjustment amounts by July 1, 2016, and the new maximum penalty levels must take effect no later than August 1, 2016. These adjustments will apply to all CMPs covered by the 2015 Adjustment Act.⁸

³ For example, Section 8(i)(2) of the FDIA, 12 U.S.C. 1818(i)(2), provides for three tiers of CMPs, with the size of such CMPs increasing with the gravity of the misconduct.

Although the 2015 Adjustment Act increases the maximum penalty that may be assessed under each applicable statute, the FDIC possesses discretion to impose CMP amounts below the maximum level in accordance with the severity of the misconduct at issue. When making a determination as to the appropriate level of any given penalty, the FDIC is guided by statutory factors set forth in section 8(i)(2)(G) of the FDIA, 12 U.S.C. 1818(i)(2)(G), and those factors identified in the *Interagency Policy Statement Regarding the Assessment of CMPs by the Federal Financial Institutions Regulatory Agencies*.⁹ Such factors include, but are not limited to, the gravity and duration of the misconduct, and the intent related to the misconduct.

III. Description of the Rule

This interim final rule adjusts the maximum limit for CMPs according to inflation as mandated by Congress in the 2015 Adjustment Act. Additionally, other technical changes to 12 CFR part 308 are being made to correct typographical errors, to supplement 12 CFR 308.132 to include references to previously omitted CMPs, and to reorder the provisions of 12 CFR 308.132 to assist readers in quickly identifying applicable CMP amounts.

The New CMP-Adjustment System

The 2015 Adjustment Act directs federal agencies to follow guidance issued by the Office of Management and Budget (OMB) on February 24, 2016 (OMB Guidance) when calculating new maximum penalty levels.¹⁰ Initial catch-up adjustments are to be based on the percent change between the Consumer Price Index for all Urban Consumers (CPI-U)¹¹ for the

month of October in the year for which the CMP was established by Congress or last adjusted for inflation (other than through the 1990 Adjustment Act), and the October 2015 CPI-U.¹² In addition, the OMB Guidance provides a table of CMP-adjustment multipliers for each year.¹³

Summary of the FDIC's Calculations

In keeping with the OMB Guidance, the FDIC multiplied each of its CMP amounts by the relevant inflation factor.¹⁴ After applying the multiplier, the FDIC rounded each penalty level to the nearest dollar. In accordance with the 2015 Adjustment Act, the FDIC did not increase penalty levels by more than 150 percent of the corresponding levels in effect on November 2, 2015. In making these calculations, the FDIC consulted with staff from the Office of the Comptroller of the Currency, the Board of Governors for the Federal Reserve System, the National Credit Union Administration, and the Bureau of Consumer Financial Protection to ensure that the FDIC's calculations and adjustments are consistent with those being proposed by other federal financial regulators for the same statutes.

Summary of Adjustments

The following chart displays the adjusted CMP amounts for each CMP identified in 12 CFR part 308.¹⁵ The following chart reflects the maximum CMPs that may be assessed through July 31, 2016, and the maximum CMPs that may be assessed on or after August 1, 2016, after the required inflation adjustment:

¹² The OMB Guidance directs agencies to identify, for each CMP, the year and corresponding amount(s) for which the maximum penalty level or range of minimum and maximum penalties was established (*i.e.*, as originally enacted by Congress), or last adjusted (*i.e.*, by Congress in statute, or by the agency through regulation), whichever is later, other than under the Inflation Adjustment Act. ¹⁴ Under the 1990 Adjustment Act, adjustments have been made only to CMPs that are for specific dollar amounts or maximums. CMPs that are assessed based upon a fixed percentage of an institution's total assets are not subject to adjustment.

¹⁵ As noted previously, the FDIC retains discretion to impose CMPs in amounts below the referenced maximums.

Addition to Part 308 of CMPs Previously Omitted

This interim final rule incorporates adjustments to two categories of CMPs previously inadvertently omitted from the FDIC’s last inflation-adjustment rulemaking in 2012.

The Dodd-Frank Act¹⁶ amended the Truth in Lending Act to establish independence standards for property appraisals and authorized the FDIC and other federal agencies to assess specified

¹⁶ Pub. L. 111-203, tit. XIV, sec. 1472(a), 124 Stat. 2187.

CMPs against persons who violate these provisions (Appraisal Independence CMP).¹⁷ Title III of the Dodd-Frank Act also transferred the functions, powers, and duties of the Office of Thrift Supervision relating to State savings associations to the FDIC and amended section 3 of the Federal Deposit Insurance Act to designate the FDIC as the “appropriate Federal banking agency” for State savings associations. Among the transferred authorities was the authority to impose CMPs against any State savings association under section 9(d) of the Home Owners’ Loan Act (HOLA) (12 U.S.C. 1467(d)) if an affiliate of such an institution refuses to permit a duly-appointed examiner to conduct an examination or refuses to provide information during the course of an examination (Savings Association CMP).

Neither the Appraisal Independence CMP nor the Savings Association CMP was previously included in Part 308. Nonetheless, the FDIC is required by the 2015 Adjustment Act to adjust all CMPs under the FDIC’s jurisdiction in the agency’s inflation-adjustment rulemaking. Consequently, the present amendment to Part 308 specifically incorporates provisions in 12 CFR 308.132 related to the Appraisal Independence CMP and Savings Association CMP in 12 CFR 308.132, applying the adjustments required under the 2015 Adjustment Act and the OMB Guidance to these penalties.

Other Technical Changes to 12 CFR Part 308

The FDIC corrected a typographical error in 12 CFR 308.132(c) by indicating that the FDIC’s Board of Directors or its designee may assess CMPs under 12 CFR 308.1(e) rather than the incorrect “308.01(e)(1).”

The FDIC reorganized 12 CFR 308.132, listing all statutes cited that give rise to CMPs in ascending alpha-numeric order by title and section to assist readers in quickly identifying the applicable CMP amounts.

¹⁷ 15 U.S.C. 1639e(k).

Finally, the FDIC revised existing cross-references to 12 CFR 308.132 that are found in Chapter III of Title 12 of the Code of Federal Regulations to reflect the resultant reorganization of 12 CFR 308.132.

IV. Expected Effects of the Rule

The interim final rule is expected to more precisely adjust CMP maximums relative to inflation. These adjustments are expected to minimize any year-to-year distortions in the real value of the CMP maximums. These adjustments will promote a more consistent deterrent effect in the structure of CMPs. As previously noted, the FDIC retains discretion to impose CMP amounts below the maximum level. The actual number and size of CMPs assessed in the future will depend on the propensity and severity of the violations committed by banks and institution-affiliated parties, as well as the particular statute that is at issue. Such future violations cannot be reliably forecast. It is expected that the FDIC will continue to exercise its discretion to impose CMPs that are appropriate to their severity.

The 2015 Adjustment Act will likely result in a minimal increase in administrative costs for the FDIC in order to establish new inflation-adjusted maximum CMPs each year. Because these calculations are relatively simple, the number of labor hours necessary to perform this task is likely to be insignificant relative to total enforcement labor hours for the Corporation.

V. Alternatives Considered

The 2015 Act mandates the frequency of the inflation adjustment and the measure of inflation to be used in making these adjustments; accordingly, the FDIC is not statutorily authorized to consider or pursue alternative approaches. The other technical changes to 12 CFR part 308 were relatively minor and designed to improve the transparency and readability of the CFR, and therefore the FDIC did not actively consider alternative approaches to these changes.

VI. Request for Comment

The 2015 Adjustment Act requires the FDIC to amend its rules through an interim final rulemaking and provides the specific adjustments to be made. These changes are ministerial and technical. Under the OMB Guidance, the FDIC is not required to complete a notice-and-comment process prior to publication of this interim final rule in the *Federal Register*.¹⁸ Nonetheless, although notice and comment rulemaking procedures are not required, the FDIC invites comments on all aspects of this interim final rule. Commenters are specifically encouraged to identify any technical issues raised by the rule, including identifying any potential CMPs that may have been unintentionally omitted from this adjustment rulemaking.

VII. Regulatory Analysis

Riegle Community Development and Regulatory Improvement Act

Section 302 of the Riegle Community Development and Regulatory Improvement Act¹⁹ generally requires that regulations prescribed by federal banking agencies which impose additional reporting, disclosures, or other new requirements on insured depository institutions take effect on the first day of a calendar quarter unless the regulation is required to take effect on another date pursuant to another act of Congress or the agency determines for good cause that the regulation should become effective on an earlier date.

This interim final rule merely adjusts the maximum CMPs which the FDIC may assess. It does not impose any new or additional reporting, disclosures, or other requirements on insured depository institutions. Additionally, as previously noted, the 2015 Adjustment Act requires the

¹⁸ OMB Guidance at 3.

¹⁹ 12 U.S.C. 4802.

interim final rule to take effect no later than August 1, 2016.²⁰ Accordingly, this interim final rule will be effective August 1, 2016.

Regulatory Flexibility Act

An initial regulatory flexibility analysis under the Regulatory Flexibility Act²¹ (RFA) is required only when an agency must publish a general notice of proposed rulemaking. As noted above, the FDIC determined that publication of a notice of proposed rulemaking is not necessary for this interim final rule. Accordingly, the RFA does not require an initial regulatory flexibility analysis. Nevertheless, the FDIC considered the likely impact of the rule on small entities. From 2011 through 2015, on average, only 1.6 percent of FDIC-supervised institutions were ordered to pay a CMP each year. Accordingly, the FDIC believes that the rule will not have a significant impact on a substantial number of small entities.

Small Business Regulatory Enforcement Fairness Act

The OMB has determined that the interim final rule is not a “major rule” within the meaning of the relevant sections of the Small Business Regulatory Enforcement Act of 1996 (SBREFA).²² As required by SBREFA, the FDIC will submit the interim final rule and other appropriate reports to Congress and the Government Accountability Office for review.

The Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999: Assessment of Federal Regulations and Policies on Families

The FDIC determined that this final rule will not affect family wellbeing within the meaning of section 654 of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999.²³

Paperwork Reduction Act

The interim rule will implement statutory changes to the FDIC's CMP regulations. It does not create any new, or revise any existing, collections of information under section 3504(h) of the Paperwork Reduction Act of 1980.²⁴ Consequently, no information collection request will be submitted to the OMB for review.

Plain Language Act

Section 722 of the Gramm-Leach-Bliley Act requires the FDIC to use plain language in all proposed and final rules published after January 1, 2000.²⁵ The FDIC invites comment on how to make this rule easier to understand. For example:

- Has the FDIC organized the material to suit your needs? If not, how could the FDIC present the rule more clearly?
- Are the requirements in the rule clearly stated? If not, how could the rule be more clearly stated?
- Do the regulations contain technical language or jargon that is not clear? If so, which language requires clarification?
- Would a different format (grouping and order of sections, use of headings, paragraphing) make the regulation easier to understand? If so, what changes would achieve that?
- Is this section format adequate? If not, which of the sections should be changed and how?
- What other changes can the FDIC incorporate to make the regulation easier to understand?

* * * * *

4. Add new 12 CFR 308.132(d) to read as follows:

* * * * *

(d) Maximum civil money penalty amounts. Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, on or after August 1, 2016, the Board of Directors or its designee may assess civil money penalties in the maximum amounts as follows:

(1) Civil money penalties assessed pursuant to 12 U.S.C. 1464(v) for late filing or the submission of false or misleading certified statements by State savings associations. Pursuant to section 5(v) of the Home Owners' Loan Act (12 U.S.C. 1464(v)), the Board of Directors or its designee may assess civil money penalties as follows:

(i) Late filing—Tier One penalties. In cases in which an institution fails to make or publish its Report of Condition and Income (Call Report) within the appropriate time periods, a civil money penalty of not more than \$3,787 per day may be assessed where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the late filing occurred unintentionally and as a result of such error; or the institution inadvertently transmitted a Call Report that is minimally late. For penalties assessed on or after August 1, 2016, for violations of this paragraph (d)(3)(i), the following maximum Tier One penalty amounts contained in paragraphs (d)(1)(i)(A) and (B) of this section shall apply for each day that the violation continues.

(A) First offense. Generally, in such cases, the amount assessed shall be \$519 per day for each of the first 15 days for which the failure continues, and \$1,039 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than \$25,000,000 in assets, the amount assessed shall be the greater of \$173 per day or 1/1000th of the institution's total assets (1/10th of a basis point) for each of the first 15 days for which the failure continues, and \$346 or 1/500th of the institution's total assets, 1/5 of a basis point) for each subsequent day the failure continues, beginning on the sixteenth day.

(B) Subsequent offense. Where the institution has been delinquent in making or publishing its Call Report within the preceding five quarters, the amount assessed for the most current failure shall generally be \$865 per day for each of the first 15 days for which the failure continues, and \$1,731 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than \$25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank's total assets and 1/250th of the institution's total assets.

(C) Lengthy or repeated violations. The amounts set forth in this paragraph (d)(1)(i) will be assessed on a case by case basis where the amount of time of the institution's delinquency is lengthy or the institution has been delinquent repeatedly in making or publishing its Call Reports.

(D) Waiver. Absent extraordinary circumstances outside the control of the institution, penalties assessed for late filing shall not be waived.

(ii) Late-filing—Tier Two penalties. Where an institution fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than \$37,872 per day for each day the failure continues.

(iii) False or misleading reports or information

(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than \$3,787 per day for each day the information is not corrected, where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the violation occurred unintentionally and as a result of such error; or the institution inadvertently transmits a Call Report or information that is false or misleading.
