adjust revenue thresholds for inflation based on the annual average value of the GDP-CPI for the revenue year relative to the value of the GDP-CPI on October 19, 1992, rounded to the nearest $1 million.

The indexed revenue threshold for 1998 is calculated as follows:

[A] GDP-CPI (October 19, 1992) 100.69
[D] Original Revenue Threshold $100 million

Accordingly, the indexed revenue threshold for 1998 is $112 million.

Kenneth P. Moran,
Chief, Accounting Safeguards Division.

Withdrawal of proposed Statement of Policy

The Federal Deposit Insurance Corporation (the FDIC) hereby gives notice that it has withdrawn its outstanding proposed Statement of Policy published on December 30, 1998, (46 FR 31018) that would have clarified the treatment of securitizations and loan participations after appointment by the FDIC as conservator or receiver of an insured depository institution. The proposed Statement of Policy, which was intended to provide sufficient assurances to permit the transfer of financial assets by insured depository institutions in connection with a securitization or loan participation to be accounted for as a sale under generally accepted accounting principles, is being withdrawn because the FDIC is proposing a rule that would have the same intended effect as the proposed Statement of Policy. Effective Date: September 9, 1999.
