7.3.2-34 - Duty to Deliver or Perform - July 2008

Contractor agrees to perform the services (the "Services") or provide the goods (the "Goods"), in accordance with the terms and conditions set forth herein and in any attachments to the contract.

Statement of Objectives (SOO)

The Mission-Driven Bank Fund's Financial Advisory Services

1.0 Purpose

Compared to mainstream banks, Federal Deposit Insurance Corporation (FDIC)-insured Minority Depository Institutions (“MDIs”) and Community Development Financial Institution banks (“CDFIs”) commit a larger portion of their portfolios to minority, low- or moderate income (“LMI”), and rural communities. Such banks are commonly known as “mission-driven banks” because they play a role in transforming the lives of underserved citizens and communities by making loans and providing other vital banking products and services. Many mission-driven banks are small, and building capacity and scale are critical to growing their operations and expanding services to their communities. Capital access is a perennial challenge for many of these institutions given the communities they serve and difficulty producing higher returns on assets at their current size/scale. The FDIC regularly works to create opportunities for MDIs and CDFIs (together “Mission-Driven Banks”) to build partnerships with other banks or private companies for financial support, lending, and other services, including technical assistance.

As the COVID-19 pandemic continues to disrupt the daily lives of all Americans, minority communities have suffered disproportionately, from both a health and economic perspective. Overlaying these challenges, there is a nationwide conversation about racial inequality and other social issues that pose difficult questions across a wide range of policy areas, including banking and financial services. As the nation’s deposit insurer and primary supervisor of community banks, including many Mission-Driven Banks, the FDIC plays an important role in helping these institutions meet the needs of their customers and communities – especially minority, LMI, and rural communities. Mission-Driven Banks are often the financial lifeblood of the communities they serve, enabling individuals and minority-owned small businesses to securely build savings and obtain credit in challenging economic environments.

2.0 Background

The FDIC is an independent agency created by Congress to maintain stability and public confidence in the nation's financial system. To accomplish this mission, the FDIC insures deposits; examines and supervises financial institutions for safety, soundness, and consumer protection; makes large and complex financial institutions resolvable; and manages receiverships.

The FDIC seeks to create the framework for a fund (the “Fund”) that will provide investors a vehicle to support Mission-Driven Banks and the communities they serve. The key elements or overarching goals of the engagement include:

- The Fund will provide a variety of forms of support, including, without limitation, equity, loan participations, loss-share arrangements, structured transactions for performing or troubled assets, and loan facilities.
- The Fund’s individual investments in Mission-Driven Banks will likely range from \$3 million to \$10 million, though individual investments could be smaller or larger depending

on the needs of the requesting Mission-Driven Bank and the Fund investment committee's review of the investment opportunity, consistent with the overall Fund investment strategy.

- The Fund is expected to have initial capital commitments in the range of \$100 million to \$250 million and would be expected to grow to \$500 million to \$1 billion.
- The Fund will target a minimal rate of return on investments of approximately 1% to 3%. Investors will have the option to choose to reinvest any of their specific returns in the Fund or in aligned non-profit enterprises that support Mission-Driven Banks.
- The Fund will have a long duration and maintain a mission-driven investment strategy to support Mission-Driven Banks and the communities they serve.
- One or more investment advisors will be engaged by the Fund to develop, advise, and manage the Fund after the date of formation of the Fund, as Fund manager. The FDIC will play no role in Fund management or individual investment decisions.
- The Fund manager will provide at least annual reports to the FDIC and Fund investors on the operations of the Fund and investments in prior periods, including metrics relating to investment performance and associated benefits to the communities served by Mission-Driven Banks that have received Fund support. The Fund manager will certify to the investors that the investment strategy remains aligned to the purposes for which the Fund was established. Investors will have an opportunity at least annually to discuss the overall investment strategy. The FDIC will continue to assess the alignment of the Fund's on-going operations with its purpose of assisting Mission-Driven Banks.
- An investment committee, composed of experts in Mission-Driven Banks, the economic needs of minority, LMI, and rural communities, and any other areas necessary to ensure alignment with the Fund investment strategy, will advise/guide the Fund on investment recommendations/decisions.
- The investment committee will meet at least quarterly to review and consider specific proposals from Mission-Driven Banks for Fund investments, which will include the details of the investment sought and the proposed use of the capital provided by the Fund investment to support minority, LMI, and rural communities.
- Investor groups will likely consist of corporations, businesses, philanthropic organizations, or other entities, outside of the banking industry, though participation by other financial institutions may be considered by Fund investors and the Fund manager.

This acquisition is to obtain financial advisory services to support the FDIC in the creation of the framework, structure, and concept of operations for the Mission-Driven Bank Fund.

3.0 Scope of Services

The FDIC requires financial advisory services to support the establishment of the Mission-Driven Bank Fund. The FDIC expects that the financial advisor will perform the services customarily

performed in complex transactions described above and otherwise necessary for the formation of the Fund, including but not limited to the following:

1. Collaborating with the other financial advisor, if more than one is selected, to recommend a structure and concept of operations for the Fund based on the goals described above, and identifying requirements necessary to operate the Fund.
2. Meeting and participating in conference calls with representatives of the FDIC and its attorneys, potential Fund investors, and others as directed by the FDIC to discuss formation of the Fund including a contract kick off meeting
3. Reviewing documents needed for formation of the Fund and advising on the proposed transaction.
4. Providing both oral and written advice to the FDIC and its engaged law firms regarding various financial issues associated with the Fund formation.
5. Assisting in the closing, including coordination of legal/documentation process, and in any post-closing work related to the Fund formation.

Please note that this procurement is not for the purposes of selecting a Fund manager. The selection of a Fund manager will be made by the Fund investors after the Fund has been established. Selection as the Fund advisor under this contract will not preclude the Contractor from consideration to be the Fund Manager. The FDIC may choose to select one or more financial advisors under this SOO.

4.0 Performance Objectives (required results)

The Contractor(s) will need to meet the following minimum objectives:

1. Attend a contract kick off meeting on or before one calendar day after award.
2. Collaborate and establish a plan and schedule with milestones to complete the formation of the Fund to include the identification of any roadblocks to establishing the fund and a plan of action to overcome such roadblocks on or before seven calendar days after award.
3. Collaborate and prepare a report with the recommended structure of the Fund and identify any additional requirements necessary to operate the Fund on or before 17 calendar days after award.
4. Participate in a briefing to potential Fund investors on or before 28 days after award.
5. Provide assistance as necessary to complete establishment of the Fund by on or before 49 calendar days after award.

5.0 Period of Performance

The project shall be completed by January 29, 2021.

6.0 Place of Performance

The place of performance will be at the Contractor's facility. FDIC does not anticipate that travel will be required, and any travel by the Contractor will not be reimbursed.

7.0 Deliverables

1. Plan and Schedule with milestones to complete the formation of the Fund to include the identification of any roadblocks to establishing the fund and a plan of action to overcome such roadblocks on or before seven calendar days after award.

7.5.13-01 - Method of Payment - Electronic Fund Transfer (EFT) - March 2014

(a) Payment methods. Payments by the FDIC may be made by check or electronic funds transfer (EFT), or by a third party in lieu of payment directly from the FDIC, at the option of the FDIC. If the FDIC makes payment by EFT, the FDIC may, at its option, also forward the associated payment information by electronic transfer. Any third party payments will be made by the FDIC's commercial purchase card issuer. In the event Contractor certifies in writing to the payment office that Contractor does not have an account with a financial institution or an authorized payment agent, the FDIC would make payments by other than EFT.

(b) Contractor Payment Requests. If the FDIC elects for third party payments to be made, Contractor shall make payment requests through a charge to the FDIC purchase card with the third party, at the time and for the amount due in accordance with the terms of this contract. Contractor and the third party shall agree that payments due under this contract shall be made upon submittal of payment requests to the third party in accordance with the terms and conditions of an agreement between Contractor, the Contractor's financial agent (if any), and the third party and its agents (if any). No payment shall be due the Contractor until such agreement is made. Payments made or due by the third party are not subject to the Prompt Payment Act or any implementation thereof in this contract. Documentation of each charge against the FDIC's purchase card shall be provided to the Contracting Officer upon request.

Contractor is required, as a condition to any payment, to maintain current information in the System for Award Management (SAM) database. Any invoice submitted with incorrect EFT information shall be deemed not to be a

proper invoice as defined in the Prompt Payment Act clause herein.

7.5.13-06 - Compensation Ceiling - Contract or Task Order - July 2008

In no event will total FDIC compensation to Contractor, including any reimbursed costs and expenses, exceed the sum of \$_____ for the entire Period of Performance, including the initial period and all options, if any. Contractor must notify the Contracting Officer, in writing, when Contractor has incurred charges amounting to seventy-five percent (75%) of the ceiling amount for each performance period.

7.5.13-12 - Schedule for Invoicing - July 2008

For Firm-Fixed-Price, Contractor must submit invoice upon completion of the service or delivery of the goods.

7.5.13-13 - Contents of Invoice - March 2014

Contractor's invoices must include the following items in order to be processed for payment:

- (a) Contractor name, address and phone number.
- (b) Invoice date. (Contractors must date invoices as close as possible to the date of electronic transmission to FDIC.)
- (c) Invoice number.
- (d) Contract Number (e.g., Contract Number, Task Order Number, Delivery Order Number, etc.)
- (e) Line Item Number(s), as identified in the contract, and the amount invoiced for each Line Item Number.
- (f) Allocation of all hours and expenses to Financial Institution Number (FIN) and Asset Name/Number, if applicable.
- (g) Description, quantity, unit of measure, unit price, extended price of goods delivered or services performed.
- (h) Total invoice amount.
- (i) Payment terms (discount for prompt payment terms).
- (j) Remittance address.
- (k) Billing Point of Contact (e.g., name (where practicable), title, phone number, and mailing address of person to notify if there are questions regarding the invoice).
- (l) Shipping information (e.g., shipment number, date of shipment, bill of lading number and weight of shipment. Shipping charges, if any, must be shown as a separate item on the invoice).
- (m) For time and material or labor hour awards, copies of time sheets in support of direct labor charges.
- (n) If travel expenses are reimbursable under the award, Contractor must submit travel documentation, receipts and other proof of expenses as required by the FDIC Contractor Travel Reimbursement Guidelines.
- (o) If subcontractor expenses are reimbursable under a labor-hour or time-and-material award, Contractor must:
 - (1) identify subcontractor expenses and costs separate from prime contractor expenses and costs on the invoice it submits to FDIC;
 - (2) submit with its invoice, as supporting documentation, a copy of its subcontractor's invoice when seeking reimbursement of subcontractor expenses.
- (p) Pass through costs - If expenses or costs are reimbursable under the terms of the award, a description of each shall be provided in the invoice along with the quantity, unit amount, and total amount. Also, if amounts are derived from application of any formula, calculation, percentage, etc., such application must be clearly evident in the supporting documentation provided with the invoice.
- (q) The following certification statement, signed by an authorized company representative:

"This is to certify that the services set forth herein [goods described herein] were performed [delivered] during the period stated.

(r) Any other information or supporting documentation required by the award.

If an invoice does not contain the above required information; contains errors; or exceeds the total compensation ceiling limit for this award, the invoice will be returned to Contractor and processing of the invoice for payment will be delayed until the deficiency is corrected.

In addition, the FDIC requires Contractors to maintain current information in the System for Award Management (SAM) database and complete the annual renewal process, in order to receive timely invoice payments. FDIC may reject any invoice received from Contractor where processing of the invoice cannot be completed because Contractor has failed to maintain its registration, including electronic funds transfer (EFT) information, in the SAM database.

7.5.13-14 - Electronic Invoice Preparation and Submission (CORHQ Business Unit) - July 2008

Contractor must follow the FDIC's electronic invoice preparation and submission instructions stated below:

(a) Contractor must email electronic invoices to the FDIC's Division of Finance/Accounts Payable (DOF/AP) at the following address: DOFAPInvoice@fdic.gov

(b) Contractor must only email their invoices to the above DOF/AP email address and not the Oversight Manager (OM) or Contracting Officer. The FDIC will not accept hand-delivered invoices or invoices sent to any other address (i.e., FDIC street address or any other email addresses).

(c) Contractor must submit the electronic invoice as a single file document, in pdf format. The file should include the exact same information that has been submitted physically via mail in the past. (FDIC only wants one electronic file because we will be uploading the single pdf into a database and we only want one file associated with an invoice. However, if the size of a single pdf file exceeds 30 MB, the invoice may either be submitted as two pdf files, with neither pdf file exceeding 30 MB, or it may be submitted as a zip file that does not exceed 30 MB. If two pdf files are used, each email must clearly identify that the invoice has been separated into two pdf files to accommodate the size limitation. If a zip file is used, the individual files inside the zip file must be kept to a minimum and each must have a descriptive file name, such as "Invoice cover page", "Timesheets", etc.)

(d) Contractor must not include more than one electronic invoice in the same email. (For example, if a Contractor has four task orders, a separate email with a single invoice must be submitted for each of the four task orders.)

(e) Contractor must name the pdf file or zip file in the following format (with invoice date shown as year/month/date followed by a space and the invoice number):

Invoice date and invoice number (e.g., 2008-01-31 1067876)

(f) Contractor's email subject line must include the words, "Contractor Invoice", followed by a hyphen and the Contract Number (or Task Order Number, or Delivery Order Number, as applicable), as shown in the example below:

"Contractor Invoice - CORHQ-08-C-0000"

(g) Task Assignments: For contracts and task orders containing provisions for Task Assignments, a separate invoice must be submitted via a separate email for each Task Assignment.

(h) The counting of days for Prompt Payment begins on the date the invoice is received in the inbox of the DOF/AP email address, until 4PM. Invoices received after 4PM will be counted as being received the following FDIC workday.

7.5.1-02 - Protecting Sensitive Information - February 2019

(a) Sensitive Information Defined. Per FDIC Circular 1360.9, sensitive information is any information, the loss, misuse, or unauthorized access to or modification of which could adversely impact the interests of FDIC in carrying out its programs or the privacy to which individuals are entitled. It includes, but not exclusively, the following:

- (1) Information that is exempt from disclosure under the Freedom of Information Act, such as trade secrets and commercial or financial information, information compiled for law enforcement purposes, personnel and medical files, and information contained in bank examination reports;
- (2) Information under the control of FDIC contained in a Privacy Act system of record that is retrieved using an individual's name or by other criteria that identifies an individual;
- (3) Personally Identifiable Information (PII) about individuals maintained by FDIC that if released for unauthorized use may result in financial or personal damage to the individual to whom such information relates. Sensitive PII, a subset of PII, may be comprised of a single item of information (e.g., SSN) or a combination of two or more items (e.g., full name along with, financial, medical, criminal, or employment information). Sensitive PII presents the highest risk of being misused for identity theft or fraud;
- (4) Information about insurance assessments, resolution and receivership activities, as well as enforcement, legal, and contracting activities; and
- (5) Information related to information technology specific to the FDIC that could be misused by malicious entities (e.g., internal IP addresses, server names, firewall rules, encryption and authentication mechanisms, and network

architecture pertaining to FDIC),

(b) Protecting Sensitive Information. Contractor, all Contractor Personnel, subcontractors and subcontractor personnel shall comply with FDIC Circular 1360.9, Protecting Sensitive Information, and protect the confidentiality, integrity and availability of sensitive information, including PII, to which they have access. FDIC Circular 1360.9 is available at the FDIC website: www.fdic.gov/buying/goods/acquisition/index.html

(c) Controlling Sensitive Information. All sensitive information, electronic and paper copy, remains the property of FDIC. Sensitive information shall not be moved outside of FDIC premises or networks/systems unless this contract contains clause 7.4.2-2, Off-site Processing and Storing of FDIC Information.

(d) Confidentiality Agreement. An authorized representative of the Contractor, its subcontractors and consultants, and all personnel (key personnel and non-key personnel) who will have access to FDIC facilities, networks and/or information systems, or sensitive information (whether in hardcopy or electronic form) must execute confidentiality agreements. FDIC Form 3700/46, Confidentiality Agreement (for Contractors/Subcontractors/Consultants) and FDIC Form 3700/46A, Confidentiality Agreement (for Contractor/Subcontractor/Consultant Personnel) are included as attachments to this contract. The 3700/46 forms must be signed by the Contractor, and each subcontractor or consultant and submitted at the time of award to the Contracting Officer, with the signed contract. Post-award, they must be submitted to the Contracting Officer when a new subcontractor or consultant is being requested. (For Basic Ordering Agreements (BOAs), Receivership Basic Ordering Agreements (RBOAs), and Blanket Purchase Agreements (BPAs), it is acceptable for the 3700/46 forms to be executed by the Contractor, subcontractors and consultants at the BOA/RBOA/BPA level, thereby being applicable to all task orders issued thereunder.) The 3700/46A forms executed by personnel must be submitted to FDIC no later than five (5) business days after starting performance and prior to receiving any sensitive information. The Contractor must submit the 3700/46A forms signed by key personnel to the Contracting Officer and those signed by non-key personnel to the Oversight Manager. Key personnel and non-key personnel who are required to sign a confidentiality agreement, and do not sign, will not be permitted to perform work on the contract. It is acceptable for any key personnel or non-key personnel working on one or more task orders issued under a BOA/RBOA/BPA to sign and submit a single 3700/46A at the BOA/RBOA/BPA level, thereby being applicable to all task orders issued thereunder.

(e) Information Security and Privacy Awareness Training. Any key personnel or non-key personnel with access to sensitive information, who do not have access to the FDIC network and therefore are unable to take FDIC's on-line Information Security and Privacy Awareness Training using FDIC's internal website, must access the training through FDIC's external website <https://www.fdic.gov/buying/goods/acquisition/index.html> (under the Miscellaneous section). Upon completion of the training, they must provide confirmation via email to the Oversight Manager. The email must contain the following:

- trainee's name and phone number;
- contract number;
- name of the Contractor (and subcontractor or consultant, if applicable); and
- date the training was completed.

The training and email confirmation to the Oversight Manager must be accomplished prior to the individual's initial receipt of any sensitive information, and annually thereafter until contract performance is completed. The Contractor must keep a record of when the training was accomplished, and provide it to FDIC upon request. Failure to complete this training and provide email confirmations within the required timeframes may result in removal from the contract.

(f) Subcontracts. Contractor must ensure this clause is included in all first-tier subcontracts and lower-tier levels of subcontracts to which the conditions and requirements described in this clause would apply.

7.5.2-03 - Background Investigations - November 2014

a) Any Contractor Personnel or subcontractor personnel who:

- work on-site at and have unescorted access to FDIC offices or facilities, or
- have access to FDIC networks/systems

must undergo a background investigation, in accordance with FDIC Circular 1610.2. In addition, background investigations are conducted on all Contractor Personnel and subcontractor personnel on contracts and other awards for services with a value greater than \$100,000, or on any contract or award at the discretion of the FDIC. The extent of the background investigation conducted will be in direct relation to the risk level assigned either in clause 7.5.2-8, Risk Level Designation - Functional Responsibility or in clause 7.5.2-10, Risk Level Designation - Labor Category. FDIC Circular 1610.2 is available at the FDIC website:
www.fdic.gov/buying/goods/acquisition/index.html

b) Prior to obtaining an FDIC identification/access badge and commencing work under the contract, Contractor Personnel and subcontractor personnel are required to undergo both a fingerprint and a credit check. In addition, Contractor Personnel and subcontractor personnel may be subject to an OPM background investigation, based on the risk level assigned to the functional responsibilities or to the labor categories. No Contractor Personnel or subcontractor personnel, including any new personnel added at any time during the term of the contract, shall be permitted to begin work until the fingerprint and the credit check processes have been completed and FDIC has rendered a favorable determination, and the paperwork for any further OPM background investigations has been submitted.

c) Contractor must provide the Oversight Manager with the following documents for all Contractor Personnel and subcontractor personnel subject to the background investigation requirement:

- 1) An executed Background Investigation Questionnaire for Contractor Personnel and Subcontractors (FDIC 1600/04);
- 2) An executed Notice and Authorization Pertaining to Consumer Reports (FDIC 1600/10);
- 3) A Fingerprint Card (The contractor must submit FD Form 258 Fingerprint Card or coordinate with the Oversight Manager to schedule fingerprinting by the Security and Emergency Preparedness Section of FDIC.)

FDIC Forms 1600/04 and 1600/10 are available at the FDIC website:
www.fdic.gov/buying/goods/acquisition/index.html

In addition, where the assigned risk level of the contract mandates background investigations by the Office of Personnel Management, the Contractor must provide the Oversight Manager with the completed paperwork for Contractor Personnel and subcontractor personnel needed to initiate an OPM background investigation. The Oversight Manager will notify the Contractor of the method by which to submit the paperwork - either manually, using Standard Form 85P Questionnaire for Public Trust Positions, or via e-QIP (the OPM Electronic-Questionnaires-for-Investigations-Processing system). If any Contractor Personnel or subcontractor personnel have received a background investigation-clearance from another federal agency within the last 5 years, at the same or a higher risk level as that assigned to this contract, the Contractor may also provide the following to the OM:

A Certificate of Investigation or a Letter of Consent or other documentation from a government agency, verifying the date of the investigation, the investigating agency, the type of investigation completed and the clearance given.

d) Any Contractor Personnel or subcontractor personnel, whose background investigation reveals an adverse finding, may be excluded from working on the contract at the discretion of the Contracting Officer. Contractor is obligated to replace any personnel so excluded with personnel acceptable to FDIC. Replacement of personnel shall be made at no additional cost to the FDIC and without relieving Contractor of performance and delivery requirements of the contract.

e) Contractor must comply with Homeland Security Presidential Directive-12 (HSPD-12) and Federal Information Processing Standard Publication 201 (FIPS 201) entitled "Personal Identification Verification for Federal Employees and Contractors". Contractor Personnel and subcontractor personnel must present two forms of identification in original form prior to badge issuance; at least one document must be a valid State or federal government-issued picture ID. Acceptable forms of identification are listed in Form I-9, OMB No., 1615-0047, Employment Eligibility Verification. In addition, Contractor Personnel and subcontractor personnel must appear in person at least once before an FDIC official who is responsible for checking the identification documents. FDIC will not issue identification/access badges to Contractor Personnel and subcontractor personnel until proof-of-identity has been established.

f) Subcontracts. Contractor must include this clause in all its subcontracts to which the conditions and requirements described in this clause would apply. Contractor also must require its subcontractors (first-tier) to include this clause in any of their subcontracts (second-tier) to which the conditions and requirements of this clause would apply.

7.5.2-08 - Risk Level Designation (Functional Responsibility) - November 2014

(a) All work to be performed by personnel of the Contractor or subcontractor(s) fall into one of the functional responsibilities described below:

Functional Responsibilities	Risk Level
Mission-Driven Fund Financial Advisory Services	MODERATE

(b) Post-award background investigations are based on the risk levels assigned to the functional responsibilities.

(c) Personnel performing functional responsibilities designated at the HIGH risk level must be United States Citizens. Personnel performing functional responsibilities designated at the MODERATE or LOW risk levels must be either United States Citizens or Lawful Permanent Residents of the United States.

(d) If an employee of the Contractor or subcontractor may perform more than one functional responsibility, and the assigned risk levels are not the same, the highest of the assigned risk level applies to the employee.

The FDIC has the right to inspect, at reasonable times, the facilities used by Contractor during performance of the contract.

(c) Reports. If Contractor is required to furnish cost, funding or performance reports, the FDIC has the right to audit and examine Contractor's books, records, other documents and supporting materials to evaluate (1) the data underlying the reports and (2) the effectiveness of Contractor's policies and procedures to produce data compatible with the objectives of these reports.

(d) Comptroller General.

(1) The Comptroller General of the United States, or his authorized representative, shall have access to and the right to examine any of the contractor's directly pertinent records involving transactions related to this contract or a subcontract hereunder for a period of three (3) years following final payment under the contract.

(2) The period of access and examination is automatically extended for records relating to claims or litigation arising from the performance of this contract, or costs and expenses of this contract to which the Comptroller General has taken exception, and continues until all claims, litigation, appeals or exceptions are resolved.

(3) This paragraph may not be construed to require contractors or subcontractors to create or maintain any record that the contractor or subcontractor does not maintain in ordinary course of business or pursuant to a provision of law.

(e) Retention Requirement. Contractor must retain the materials described in paragraphs (b) and (c) above for three (3) years following final payment under this contract, or for any longer period required by statute or another clause in this contract. Contractor must make the materials available to the FDIC for audit, examination and reproduction, at reasonable times during the retention period. Contractor must also provide the FDIC with working space at its facilities to conduct the audit and examination. If this contract is terminated, completely or partially,

(f) Computer Data. Contractor may transfer computer data in machine readable form from one reliable computer medium to another. Contractor's computer data retention and transfer procedures must maintain the integrity, reliability and security of the original data. Contractor's choice of media affects neither Contractor's obligations nor the FDIC's rights under this clause.

(g) Subcontracts. Contractor is required to insert a clause containing all the terms of this clause, including this subparagraph (g) - altered as necessary to identify properly the contracting parties and the Contracting Officer under the FDIC prime contract - in all subcontracts under this contract that exceed \$100,000.

A subcontractor must not begin work until the contractor receives written approval by the FDIC Contracting Officer.

The following subcontractors are approved for performance under this contract: TBD

Consent by the FDIC to any proposed subcontractor does not: (1) constitute a determination of the acceptability of any subcontract terms or conditions; or (2) constitute a determination of the acceptability of any amount paid under any subcontract; or (3) relieve Contractor of any of its responsibilities under the award. Contractor must notify the FDIC Contracting Officer of any changes in subcontracting arrangements.

7.5.8-01 - Liability Insurance - April 2010

Contractor, before commencing work or permitting any subcontractor to commence work, shall procure and maintain the following insurance or, should such insurance be cancelled, the FDIC shall have the right to procure such insurance and the cost thereof shall be deducted from monies then due or which thereafter become due to Contractor. The Contracting Officer will furnish the contractor with a copy of the written decision.

The decision of the Contracting Officer is final and conclusive unless the contractor submits a written request for appeal of the decision to the Division of Administration, Acquisition Services Branch (ASB), Deputy Director, within 60 days from receipt of the Contracting Officer decision. The ASB Deputy Director must, within 30 days, decide the claim or notify the contractor of the date by which the decision will be made. The contractor has 180 days from the date of the ASB Deputy Director's decision to appeal to a court of competent jurisdiction.

Contractor will be afforded an opportunity to be heard and to offer evidence in support of its appeal, if it requests. Pending final decision of a dispute, Contractor remains obligated to proceed diligently with the performance of the contract, in accordance with the Contracting Officer's decision.

Questions of law may be considered in deciding disputes under the process described above. However, consideration of questions of law by any administrative official, representative or board is not a final decision, and is not to be construed as one.

Offeror must notify its proposed subcontractors that by providing past performance information and references to the offeror for inclusion in the proposal, a subcontractor is deemed to have given consent to the possible release by FDIC to offeror of any adverse past performance information the FDIC receives, in order that the offeror can respond to it.

Submit past performance information, in the format described in paragraph (d), on three (3) recent contracts (within the past three years) you consider the most relevant in demonstrating your ability to perform this requirement. Your discussion may include your accomplishments in resolving problems encountered on these prior contracts and in identifying and managing program risk. Clearly describe management actions you took to overcome problems and the effect those actions had in achieving improvements or rectifying problems. Merely having problems does not automatically equate to a little or no confidence rating, since the problems encountered may have been on a more complex program, or an offeror may have subsequently demonstrated the ability to overcome the problems encountered. This may allow the offeror to be considered a higher confidence candidate.

Full Text Clauses

7.3.2-17 - Best Value Evaluation Process - August 2018

(a) The FDIC will review all proposals for responsiveness and all offerors (including subcontractors) for compliance with 12 CFR 366, and will evaluate individual proposals against the evaluation factors. The FDIC may exclude an offeror from further consideration if it submits an Offer that does not conform to the proposal submission requirements.

(b) Factors A, B, and C are listed in descending order of importance.

Factor A - Mission Capability (including Oral Presentation, if necessary)

Factor B - Past Performance

Factor C - Price

Factors A and B, when combined, are significantly more important than Factor C.

Following an evaluation, award will be made to the offeror(s) whose proposal is determined to be most advantageous (best value) to the FDIC. Please note that the FDIC may use contractor support from BurgherGray LLP and Dentons in the acquisition process, including the evaluation process.

(c) Subjective judgment is implicit in the analysis of best value. The best value may not necessarily be represented by the lowest price offered. Price is not expected to be the most significant factor in the selection of a Contractor from this solicitation. The degree of importance of price as a factor, however, could increase depending upon how equally matched the competing proposals are for the other factors evaluated. When competing proposals are judged to be equal upon evaluation of the other factors considered in the best value analysis, total price and other price factors would become the most significant factor.

7.3.2-18 - Evaluation of Mission Capability - March 2014

(a) Review and Assessment of Volume 1 - Mission Capability. The FDIC will review and assess the Mission Capability of each written proposal. Mission Capability ratings will focus on strengths and weaknesses of the offeror's proposal and assess the extent to which offeror's proposal fulfills the functional requirements and meets the FDIC's needs. Evaluators will consider the soundness, content, clarity, quality, accuracy, and completeness of the proposal. The Mission Capability factor will receive one of the following color ratings (Blue, Green, Yellow, Red), based on the assessed strengths and proposal shortfalls of each offeror's proposal as it relates to Mission Capability.

MISSION CAPABILITY RATING SCALE

COLOR RATING DEFINITION

Blue/ Exceptional: Exceeds minimum performance or capability requirements in a way beneficial to the FDIC.

Green/Acceptable: Meets minimum performance or capability requirements necessary for acceptable contract performance.

Yellow/Marginal: Does not meet some minimum performance or capability requirements necessary for acceptable contract performance, but any proposal inadequacies are correctable.

Red/Unacceptable: Fails to meet minimum performance or capability requirements. Proposals with an unacceptable rating are not awardable.

7.3.2-20 - Evaluation of Past Performance - July 2008

(a) Past Performance Factor. Under the Past Performance factor, the performance confidence assessment is an evaluation of an offeror's past work record to assess the FDIC's confidence in the probability that offeror can successfully perform, as proposed. The FDIC will evaluate the offeror's demonstrated record of contract compliance in supplying services that meet user's needs, including management of cost and schedule. The Past Performance Evaluation is accomplished by reviewing aspects of an offeror's relevant past performance, focusing on and targeting performance that is relevant to the Mission Capability sub-factors. In determining relevance, contracts of similar project complexity, scope, type, and schedule are considered. Data on efforts performed by other divisions within offeror's organization and by critical subcontractors may also be considered, if such resources significantly influence the offeror's performance of the proposed effort.

(b) The FDIC may consider as relevant contracts performed for agencies of the federal, state or local governments, and for commercial customers. Each offeror will receive an integrated performance confidence assessment, which is the rating for the Past Performance factor. While the Past Performance Evaluation focuses on performance that is relevant to the Mission Capability sub-factors, the resulting performance confidence assessment is made at the factor level and represents an overall evaluation of contractor performance.

(c) Where the relevant performance record indicates performance problems, the FDIC will consider the number and severity of the problems and the appropriateness and effectiveness of any corrective actions taken (not just planned or promised). The FDIC may review more recent contracts or performance evaluations to ensure corrective actions have been implemented and to evaluate their effectiveness.

(d) The following criteria will be used to determine relevancy of previous contracts:

HIGHLY RELEVANT - The magnitude and the complexity of the effort on this contract are essentially the same as the solicitation.

RELEVANT - Some dissimilarity in the magnitude or the complexity of the effort on this contract exists, but it

contains most of what the solicitation requires.

NOT RELEVANT - Performance on this contract contains little similarity to the performance required by this solicitation.

Each offeror will receive one of the ratings described below:

RATING DEFINITION

Exceptional/High Confidence - Based on the offeror's performance record, essentially no uncertainty exists that the offeror will successfully perform the required effort.

Very Good/Significant Confidence - Based on the offeror's performance record, little uncertainty exists that the offeror will successfully perform the required effort.

Satisfactory/Confidence - Based on the offeror's performance record, some uncertainty exists that the offeror will successfully perform the required effort.

Neutral/Unknown Confidence - No performance record can be established.

Marginal/Little Confidence - Based on the offeror's performance record, substantial uncertainty exists that the offeror will successfully perform the required effort. Changes to the offeror's existing processes may be necessary in order to achieve contract requirements.

Unsatisfactory/No Confidence - Based on the offeror's performance record, extreme uncertainty exists that the offeror will successfully perform the required effort.

(e) Discussions may be conducted as necessary to provide the offeror an opportunity to address any adverse past performance, or clarify the relevancy of the offeror's past performance information or address minor clerical issues.

(f) Offerors without a record of relevant past performance or for whom information on past performance is not available will not be evaluated favorably or unfavorably on past performance, but will receive a "Neutral/Unknown Confidence" rating for the Past Performance factor.

(g) More recent and relevant performance will have a greater impact on the Performance Confidence Assessment than less recent or relevant effort. A strong record of relevant past performance may be considered more advantageous to the FDIC than a "Neutral/Unknown Confidence" rating. Likewise, a more relevant past performance record may receive a higher confidence rating and be considered more favorably than a less relevant record of favorable performance.

(h) Past performance information may be obtained through other Government systems, questionnaires tailored to the circumstances of this acquisition, interviews with program managers and contracting officers, and other sources known to the FDIC, including commercial sources and any other sources deemed appropriate.

7.3.2-22 - Evaluation of Pricing - April 2011

Pricing will be evaluated with respect to completeness and reasonableness, and if necessary, realism.

Completeness. Offeror must submit its proposed firm-fixed price in accordance with the Pricing Schedule.

Reasonableness. FDIC will evaluate prices using one or more of the following techniques:

- (a) Comparing the proposed prices to those of other offerors.
- (b) Comparing the proposed prices to FDIC's independent estimate and those in other FDIC contracts.
- (c) Comparing the proposed prices to the prices in the company's GSA Schedule or commercial price list.

Prices that are extremely high may be determined unreasonable.

Realism. Prices that are extremely low or that do not reflect a clear understanding of the requirements or is inconsistent with the offeror's technical proposal may be determined unrealistic.

Overall Evaluated Price (OEP) will be the offeror's proposed firm-fixed price.

7.3.2-29 - Award - Best Value - July 2008

FDIC will base the award on an integrated assessment of the evaluation factors and sub-factors. FDIC has the sole discretion to determine which proposal(s) represents the best value to the FDIC. A technically acceptable offer other than the one with the lowest-evaluated price may be awarded the contract.
