Section 205.10(b) states that preauthorized transfers from a consumer's account may only be authorized by the consumer in writing, signed or similarly authenticated by the consumer. Written authorizations include electronic authorizations (such as via a home banking system) which are similarly authenticated by the consumer as long as there are means to identify the consumer (such as a security code) and to make available a paper copy of the authorization (automatically or upon request). In all cases, the party that obtains the authorization from the consumer must provide a copy to the consumer.

Section 205.10(c) gives the consumer the right to stop payment of a preauthorized transfer from an account. The consumer must notify the institution orally or in writing at any time up to three business days before the scheduled date of the transfer. The institution may require written confirmation of an oral stop payment order to be made within 14 days of the consumer's oral notification. However, the institution may only impose the written confirmation requirement if, at the time the consumer made the oral stop payment order, the institution informed the consumer that written confirmation is required and told the consumer the address to which the confirmation should be sent. If the consumer fails to provide the written confirmation, the oral stop payment order ceases to be binding after 14 days.

Section 205.10(d) deals with a preauthorized transfer from a consumer's account that varies in amount from the previous transfer under the same authorization or the preauthorized amount. In the event such a transfer is scheduled to occur, the institution or designated payee must mail or deliver to the consumer a written notice, at least 10 days before the scheduled transfer date, containing the amount and scheduled date of the transfer. However, if the institution or the payee informs the consumer of the right to receive advance notice of varying transfers, the consumer may elect to receive notice only when the amount varies from the most recent transfer by more than an agreed upon amount or when it falls outside a specified range.

Section 205.10(e) prohibits the institution from conditioning an extension of credit on the condition of repayment by means of preauthorized EFT, except for credit extended under an overdraft credit plan or extended to maintain a specified minimum balance in the consumer's account. The section also prohibits anyone from requiring the establishment of an account for receipt of EFTs with a particular institution either as a condition of employment or the receipt of a government benefit.

Procedures for Resolving Errors – §205.11

Section 205.11 sets forth the definition of "error", the steps the consumer must take when alleging an error in order to receive the protection of the EFTA and Regulation E, and the procedures that an institution must follow to resolve an alleged error.

Section 205.11(a), defines the term "error" to mean:

- an unauthorized EFT;
- an incorrect EFT to or from the consumer's account;
- the omission from a periodic statement of an EFT to or from the consumer's account that should have been included;
- a computational or bookkeeping error made by the institution relating to an EFT;
- the consumer's receipt of an incorrect amount of money from an electronic terminal;
- an EFT not identified in accordance with the requirements of Sections 205.9 or 205.10(a); or
- a consumer's request for any documentation required by Sections 205.9 or 205.10(a), or for additional information or clarification concerning an EFT.

The term "error" does not include a routine inquiry about the balance in the consumer's account or a request for duplicate copies of documentation or other information that is made only for tax or other record-keeping purposes.

A notice of error is an oral or written notice indicating why the consumer believes an error exists that is received by the institution not later than 60 days after a periodic statement or other documentation which first reflects the alleged error is provided. The notice of error must also enable the institution to identify the consumer's name and account number, and, to the extent possible, the type, date and amount of the error. An institution may require a consumer to give written confirmation of an error within 10 business days of giving oral notice. The institution shall provide the address where confirmation must be sent. If written confirmation is not received, the institution must still comply with the error resolution procedures, but it need not provisionally credit the account if it takes longer than 10 business days to resolve the matter.

After receiving a notice of error, the institution is required to promptly investigate the alleged error and transmit the results to the consumer within 10 business days. As an alternative to this, the institution may take up 45 calendar days to complete its investigation provided it:

- provisionally credits the funds (including interest, where applicable) to the consumer's account within the 10 business-day period;
- advises the consumer within 2 business days of the provisional crediting; and

- gives the consumer full use of the funds during the investigation.

An institution need not provisionally credit the account if:

- the consumer fails to provide the required written confirmation of an oral notice of an error; or
- the notice of error involves an account subject to the margin requirements or other aspects of Regulation T (12 CFR 220).

If, after investigating the alleged error, the institution determines that an error has occurred, it shall promptly (within one business day after such determination) correct the error, including the crediting of interest (if applicable). The institution shall provide within three business days of the completed investigation an oral or written report of the correction to the consumer and, as applicable, notify the consumer that the provisional credit has been made final.

If the institution determines that no error occurred or that an error occurred in a different manner or amount from that described by the consumer, the institution must mail or deliver a written explanation of its findings within three business days after concluding its investigation. The explanation must include a notice of the consumer's rights to request the documents upon which the institution relied in making its determination.

Upon debiting a provisionally credited amount, the institution shall notify the consumer of the date and amount of the debit, of the fact that the institution will honor (without charge) checks, drafts or similar paper instruments payable to third parties and preauthorized debits for five business days after transmittal of the notice. The institution need honor only items that it would have paid if the provisionally credited funds had not been debited. Upon request from the consumer, the institution must promptly mail or deliver to the consumer copies of documents upon which it relied in making its determination.

If a notice involves an error that occurred within 30 days after the first deposit to the account was made, the time periods are extended from 10 and 45 days, to 20 and 90 days, respectively.

If the notice of error involves a transaction that was not initiated in a state or resulted from a point-of-sale debit card transaction, the 45-day period is extended to 90 days.

Relation to State Law – §205.12

Section 205.12 sets forth the relationship between the EFTA and the Truth in Lending Act (TILA) with regard to the issuance of access devices, consumer liability, and investigation of errors. This section also provides standards for determination and procedures for applying for state exemptions.

The EFTA governs:

- the issuance of debit cards and other access devices with EFT capabilities;
- the addition of EFT features to credit cards; and
- the issuance of access devices whose only credit feature is a pre-existing agreement to extend credit to cover account overdrafts or to maintain a minimum account balance.

The TILA governs:

- the issuance of credit cards as defined in Regulation Z, 12 CFR 226.2(a)(15);
- the addition of a credit feature to a debit card or other access device; and
- the issuance of dual debit/credit cards except for access devices whose only credit feature is a pre-existing agreement to cover account overdrafts or to maintain a minimum account balance.

The EFTA and Regulation E preempt inconsistent state laws, but only to the extent of the inconsistency. The Federal Reserve Board is given the authority to determine whether or not a state law is inconsistent. An institution, state, or other interested party may request the Board to make such a determination. A state law will not be deemed inconsistent if it is more protective of the consumer than the EFTA or Regulation E. Upon application, the Board has the authority to exempt any state from the requirements of the Act or the regulation for any class of EFTs within a state with the exception of the civil liability provision.

Administrative Enforcement – §205.13 and §917

Section 917 specifically directs the federal financial institution supervisory agencies to enforce compliance with the provisions of the EFTA.

Institutions are required to maintain evidence of compliance with the EFTA and Regulation E for a period of not less than two years. This period may be extended by the agency supervising the institution. It may also be extended if the institution is subject to an action filed under Sections 910, 915 or 916(a) of the EFTA which generally apply to the institution's liability under the EFTA and Regulation E. Persons subject to the EFTA who have actual notice that they are being investigated or subject to an enforcement proceeding must retain records until disposition of the proceeding. Records may be stored on microfiche, microfilm, magnetic tape, or in any other manner capable of accurately retaining and reproducing the information.

Services Offered by Provider Not Holding Consumer's Account – §205.14

This section applies in limited situations where the institution provides EFT services and issues access devices, but does
