The FFIEC 009 information collection is given

## Abstract

The Country Exposure Report (FFIEC 009) is filed quarterly with the agencies and provides information on international claims of U.S. banks and bank holding companies that is used for supervisory and analytical purposes. The information is used to monitor country exposure of banks to determine the degree of risk in their portfolios and the possible impact on U.S. banks of adverse developments in particular countries. The Country Exposure Information Report (FFIEC 009a) is a supplement to the FFIEC 009 and provides publicly available information on material foreign country exposures (all exposures to a country in excess of one percent of total assets or 20 percent of capital, whichever is less) of U.S. banks and bank holding companies that file the FFIEC 009 report. As part of the Country Exposure Information Report, reporting institutions must also furnish a list of countries in which they have lending exposures above 0.75 percent of total assets or 15 percent of total capital, whichever is less.

## Current Action

On November 8, 2002, the OCC, the Board, and the FDIC jointly published a notice soliciting comments for 60 days on proposed revisions to the FFIEC 009 and FFIEC 009a (67 FR 68228). The agencies proposed to require electronic submission of all FFIEC 009 and 009a reports effective with the March 31, 2003, report date. The agencies proposed to have the Board collect and process the FFIEC 009 and 009a reports on their behalf via the Federal Reserve System's Internet Electronic Submission (IESUB) system. Electronic filing capability via IESUB is available on the Internet through the use of data entry or a file transfer feature. These methods are secure and result in a minimal burden to banks and bank holding companies. The agencies would no longer accept paper (hard copy) reports from banks and bank holding companies after the December 31, 2002, report date. The submission deadline would remain 45 calendar days after the report date. No other changes to the FFIEC 009 reporting forms or the FFIEC 009a reporting forms and instructions were proposed.

*Type of Review:* Revision of a currently approved collection.

letters, one from a banking organization and one from a bankers' association. The two commenters alluded to their familiarity with the IESUB system filing requirements and supported the proposed submission method. However, the commenters expressed concern about the start-up time and effort required to initially submit their FFIEC 009 and 009a reports electronically. The commenters specifically cited the lack of currently approved FFIEC 009 and 009a vendor software applications as a concern. The commenters recommended the agencies investigate the possibility of providing a standardized pre-formatted form for file transfer submission to alleviate this concern.

The FFIEC and the agencies have considered the comments received and determined that it would not be practical or necessary for the Board, or the Federal Reserve district banks, to create a specific pre-formatted form for filing the FFIEC 009 and 009a via IESUB using the file transfer method. Rather than developing a pre-formatted form for file transfer submissions, the Federal Reserve district banks will provide technical assistance to any respondent who needs assistance creating files for their initial FFIEC 009 and 009a submission via IESUB. Any FFIEC 009 and 009a respondent who needs assistance is encouraged to visit the Federal Reserve System Web site <http://www.reportingandreserves.org/req.html> for additional information on IESUB. The Web site also includes a link that respondents may use to contact their local Federal Reserve district bank for assistance with IESUB.

## Request for Comment
