Pursuant to the provisions of Section 5 of the Federal Deposit Insurance Act (FDI Act)(12 U.S.C. §1815), the Federal Deposit Insurance Corporation (FDIC) received a Federal deposit insurance application on behalf of Charter Bank, a proposed new institution that will be located at 2130 Eubank Boulevard NE, Albuquerque, New Mexico. The application is intended to establish a newly chartered Federal savings association for the purpose of acquiring certain assets and liabilities of Charter Bank, Santa Fe, New Mexico, an insured Federal thrift which the FDIC became receiver for on January 22, 2010. The organizers have concurrently applied for a thrift charter and filed a Bank Merger Act application with the Office of Thrift Supervision (OTS) to facilitate the proposed acquisition.

In accordance with FDIC regulations, the deposit insurance application will not be subject to public notice, as the application is in furtherance of the resolution of the failed predecessor institution. (12 C.F.R. section 303.23 (b)) We are advised that the OTS intends to waive its public notice requirements pursuant to its regulations, which permit a waiver in supervisory cases. (12 C.F.R. section 574.6(g))

Beal Financial Corporation (BFC), an existing Texas corporation organized as a regulated thrift holding company, will serve as a holding company for Third Community. Capital will be provided by BFC’s sole shareholder, D. Andrew Beal, with an initial capitalization amount of $97,500,000.

FDIC staff has analyzed the deposit insurance application based upon BFC and the proposed Charter Bank as the successful bidder and capital of $97,500,000 being required. BFC intends to provide the proposed institution with sufficient capital, funding, and managerial resources to accomplish several strategic priorities. These priorities are to stabilize the proposed institution’s financial and operating performance, manage the acquired mortgage assets, restore credit to the markets served, and acquire additional bank franchises after operations stabilize and as opportunities arise. The proposed institution plans to develop loan modification programs intended to enable borrowers to keep their homes while maintaining the value of the underlying loans.

The financial projections indicate that the proposed institution will remain “well capitalized” and will be funded through a combination of its initial capitalization, retail deposits, and various external funding sources. Future earnings prospects appear attainable and based on reasonable projections, and management is considered satisfactory. Corporate powers to be exercised are consistent with the purpose of the FDI Act, and no undue risk to the Deposit Insurance Fund is apparent.
Accordingly, based upon a careful evaluation of all available facts and information and in consideration of the factors of Section 6 of the FDI Act, the Associate Director, pursuant to delegated authority, has concluded that approval of the application is warranted, subject to certain prudential conditions.
