Mr. Feldman:

Ref. Community Reinvestment Act Regulations

As a community banker, I strongly support any and all steps that will ease the regulatory burden that we confront every day and that unnecessarily consume time and energy that could be devoted to serving our customer base and communities.

I further support the agencies’ CRA proposal to increase the threshold for the streamlined CRA exam to $1 billion is a step in the right direction; expansion of community development to include activities that benefit rural communities and expansion of the definition of community development to include activities that benefit areas designated as disaster areas.

Regulatory burden disproportionately impacts community banks.

Respectfully,
