

Reporters: Bank holding companies (BHCs), foreign banking organizations (FBOs), and state member banks unaffiliated with a BHC.

Annual reporting hours: 18,004 hours.

Estimated average hours per response: 1 hour.

Number of respondents: 5,510.

General description of report: This information collection is mandatory (12 U.S.C. 248(a)(1), 602, 611a, 1843(k), 1844(c)(1)(A), 3106(a) and 12 CFR 211.13(c), 225.5(b), and 225.87).

Individual respondent data are not considered as confidential. However, a company may request confidential treatment pursuant to sections (b)(4) and (b)(6) of the Freedom of Information Act (5 U.S.C. 552(b)(4) and (b)(6)).

Abstract: The FR Y-10 is an event-generated report filed by top-tier domestic BHCs, including financial holding companies (FHCs), and state member banks unaffiliated with a BHC or FHC, to capture changes in their regulated investments and activities. The Federal Reserve uses the data to monitor structure information on subsidiaries and regulated investments of these entities engaged in both banking and nonbanking activities.

The FR Y-10F is an event-generated report filed by FBOs, including FHCs, to capture changes in their regulated investments and activities. The Federal Reserve uses the data to ensure compliance with U.S. banking laws and regulations and to determine the risk profile of the FBO structure.

Current action: On September 29, 2005, the Federal Reserve published a notice soliciting comments on the proposed supplement (70 FR 56897). The comment period ended on November 28, 2005. The Federal Reserve received one general comment letter; however, the proposal is unchanged from the one the Board initially approved.

In the comment letter, a small commercial bank generally questioned the usefulness of the proposed supplement for supervisory purposes. As described in the initial **Federal Register** notice, the data would be used to enhance the Federal Reserve's ability to compare regulatory data to market data and to increase the Federal Reserve's effectiveness in assessing banking organizations' compliance with the Sarbanes-Oxley Act of 2002 (SOX). Although the commenter asserted that the Federal Reserve was trying to make non-public organizations comply with SOX, non-public organizations are only required to check two boxes indicating that they have no data to report. Therefore, SOX compliance would not

be required and the burden for non-public organizations should be minimal.

As proposed, the Federal Reserve will add a Supplement to the Reports of Changes in Organizational Structure (FR Y-10S) to enhance the Federal Reserve's ability to compare regulatory data to market data and to increase the Federal Reserve's effectiveness in assessing banking organizations' compliance with Sarbanes-Oxley Act of 2002 (SOX). The initial collection of this data will be as of December 31, 2005.

The FR Y-10S panel will comprise top-tier BHCs, FBOs, and state member banks that are not controlled by a BHC. All of these organizations currently file either the FR Y-10 or FR Y-10F. However, FBOs will not be required to report data for Schedule B.

Board of Governors of the Federal Reserve System, December 7, 2005.

Jennifer J. Johnson,

Secretary of the Board.

General Description of Reports

These information collections are mandatory: 12 U.S.C. 161 and 1817 (national banks), 12 U.S.C. 248(a), 1844(c), and 3906 (state member banks and bank holding companies); and 12 U.S.C. 1817 and 1820 (insured state nonmember commercial and savings banks). The FFIEC 009 information collection is given confidential treatment (5 U.S.C. 552(b)(4) and (b)(8)). The FFIEC 009a information collection is not given confidential treatment.

Abstract

The Country Exposure Report (FFIEC 009) is filed quarterly with the agencies and provides information on international claims of U.S. banks and bank holding companies that is used for supervisory and analytical purposes. The information is used to monitor country exposure of banks to determine

the degree of risk in their portfolios and the possible impact on U.S. banks of adverse developments in particular countries. The Country Exposure Information Report (FFIEC 009a) is a supplement to the FFIEC 009 and provides publicly available information on material foreign country exposures (all exposures to a country in excess of 1 percent of total assets or 20 percent of capital, whichever is less) of U.S. banks and bank holding companies that file the FFIEC 009 report. As part of the Country Exposure Information Report, reporting institutions must also furnish a list of countries in which they have lending exposures above 0.75 percent of total assets or 15 percent of total capital, whichever is less.

Request for Comment

Comments are invited on:

a. Whether the information collections are necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

b. The accuracy of the agencies' estimates of the burden of the information collections, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or start up costs and costs of operation, maintenance, and purchase of services to provide information.

Comments submitted in response to this notice will be shared among the agencies. All comments will become a matter of public record. Written comments should address the accuracy of the burden estimates and ways to minimize burden including the use of automated collection techniques or the use of other forms of information technology as well as other relevant aspects of the information collection request.
