Subject: ILC's

As President/CEO of Volunteers of America, Utah, a non-profit human service agency, I am writing to tell you of the support provided by ILC's in Utah. ILC's in the State of Utah provide a great deal of financial support in the form of grants and housing financing to numerous non-profits throughout the State of Utah. These funds enable agencies such as Volunteers of America, Utah to provide needed services to homeless and low income individuals in our community. ILC's are also playing a key role in the Federal/State/County Government's 10-Year Plan to End Chronic Homelessness in Utah. As a result, I believe that ILC's are true community partners and help make a difference in the State of Utah.

Jeff St. Romain, President/CEO
Volunteers of America, Utah
