Subject: Assessments, RIN-AD35

Please reconsider the special assessments as announced on Friday, February 27th. Cedar Rapids Bank & Trust is a fiscally responsible community bank located in an area that has had enough disasters in the last year to last us a lifetime. Our city and its citizens need every penny possible to aid the recovery after the flood of 2008. The impact of this assessment would reduce our budgeted capital by 1.78% and compared to pretax income would be 14.19%. This would greatly impact our assistance to those in need in our community.
