

To Whom It May Concern @ the FDIC:

I would respectfully ask you to reconsider allowing the special 10 cent assessment. This additional assessment will be an undue hardship on banks who really have played no part in the current crisis. Rather than just impose a "blanket assessment" to all banks, perhaps the assessment could be imposed on banks that would be considered "at risk", rather than on the "healthy" banks as well. We would all appreciate your consideration on this action that could potentially be very harmful to the smaller community banks that are essentially the healthy backbone of our great nation!

Sincerely,
Cynthia A. Lewis
