Subject: Assessments RIN 3064-AD35

To whom it may concern:

I am writing in response about the 2009 increase concerning the FDIC and the insurance required to be paid by Banks. As a community Banker, I find it hard to believe that this "one-time assessment" is being considered. Bank profits are down, and many banks are in financial distress. This will only make matters worse. I do not support this increase. I urge you to reconsider this request.
