Subject: Community Bank Special Assessment

To Chairperson Sheila C Bair and the Board of the FDIC

I can not begin to express my outrage at the unjust treatment that you people are hurling at the nation's community banks. In general, community banks have followed honest and sound business practices, unlike their larger brethren. Community banks have well served their communities and care deeply for the people that live in them.

It is simply not right that community banks should suffer for the sins of the Wall Street Bankers. This suffering is manifesting itself not only in all of these added fees and assessments, but in regulations both old and proposed, that will further strangle our daily business practices.

I would like to invite all of you to come to Hennepin, Illinois and see what a small community is. The Beltway is NOT AMERICA. You need to be able to see how most of the people of our nation really live and work. Sadly, this proposed action shows that you do not.

I urge you to educate yourselves and get in touch with those who depend upon you, and, begrudgingly, wish you well in a job that I know is difficult.
