**Subject:** FDIC Insurance

Why should my bank pay for the sins of Citi, BOA, Indy Mac and others during a time when we are all struggling to maintain profits? Why don't you ask Congress to inject 50 Billion into the FDIC fund? They gave all of these banks well in excess of that amount. They gave AIG over 100 Billion. I don't think this burden should be placed on the backs of community banks that for the most part; have nothing to do with this mess.
