Subject: Taxes and insurance

Enough is enough. Not only is the unemployment rate extremely high, that is not enough. Now, you want to hurt the small community banks, which did not compromise their integrity making bad loans, and put their future in jeopardy. Now, let's lay off MORE employees from the small towns, so that we can keep up with you big dogs.

I am tired of good people being punished for bad people's choices. Let the big banks fail, they deserve it!
