<MSG>I have been a real estate broker in NW
Ind. for 30 years. If you let the new
practice of elimating government loans
and making people put 20% down, our government will collaspe. When a house sells, it involves furniture, carpet, paint, wood,
ghting, etc. There are is a lot more that is selling than just a house. You take away the average person's availity to
buy a house, that will really put our
Country into a tail spin. Everyone I
have talked to is upset about this.</MSG>
