Docket No. R-1411  
FileNumber S7-14-11  
RIN number 2590-AA43

A 20% down payment is an appropriate level for a "qualified residential mortgage". Banks are free to issue loans with a lower percent downpayment as long as they hold onto a percentage of the loan. Seems pretty straightforward to me. If it took you 10 years to save the money to put down on a house, you're going to think long and hard about walking away.
