Subject: August 30, 2012 - FDIC (RIN 3064â€"AD95)

Good morning.

As a long time member of the Board of Bristol County Savings, a mutual savings bank located in Taunton MA., I would like to express my concern regarding the Basel III Capital proposal. Senior management at the bank will be commenting to the specifics of the proposal in due course. My personal comment is that this proposal, in regards to community banks, is a solution looking for a problem.

Bristol County Savings Bank has for over 150 years has been attentive to the needs of the communities of which it serves and helping to strengthen the area economy. I strongly urge you to consider the negative impact the proposal will have on all community banks including Bristol County Savings, and consider a possible exemption from the most detrimental of these proposed rules.

Regards,

TED DION
