Subject: FFIEC 51

To whom it may concern:

The Farmers State Bank of Turton is a small bank (less than 30 million in assets) in a town of less than 50, serving a area with a population of less than 3,500.

All of the Schedules that are proposed to be removed, RC-D, RC-P, RC-Q, RC-S and RC-V being replaced with Schedule RC-U do not involve any activities our bank does now or ever plans on engaging in.

Also, all of the Data items removed do not involve any of our bank's activities.

All of these changes that are being proposed will greatly reduce the time necessary for completion of the call report and are welcome and needed.

Thank you for your consideration.

Your Truly,

Monte J. Troske

Monte J. Troske
President/CEO
Turton SD
