Comment: I am commenting on the burdensome affects of the quarterly call report we must file. This has become a typical one size fits all in that the vast amount of information requested is awesome and largely not applicable to the typical community bank. Specifically Schedule R "Risk Based Capital" is an example of my comment. Other schedules such as RC-O, RC-E and RC-K require much manual computation.

There should be extensive attention played to having a simpler call report specifically geared to the small community bank (less than 10 billion).
