Subject: Support for Sun Trust and BB&T merger
Date: Thursday, April 04, 2019 1:01:54 PM

I am very excited about the proposed merger of Sun Trust and BB&T. Being involved in working with communities to improve the quality of life for citizens based on the success of Pensacola, it is important for every community to have the most effective and efficient financial institutions as possible. Today due to many forces at times banks are not able to participate as they would like in many small and mid-market cities from loans to community involvement. Being more aware of Sun Trust, find them doing much to help local people and businesses. Sun Trust merger with BB&T ,I believe, will allow for even more support to local communities. My full support of this merger.
