Entrepreneur

To Whom It May Concern:

Charleston Habitat for Humanity has enjoyed a successful community partnership with Sun Trust Bank for many years. The local Sun Trust employees have supported our important work in Charleston by volunteering on our construction sites to help us build affordable housing for hard working, low-income local families. In addition, Sun Trust has awarded grant funds to sponsor home builds for these deserving families. Sun Trust personnel are deeply invested in our town and it's growth and success and we value the opportunity to continue to work with them in the future.

Please don't hesitate to contact me if you have any further questions.

Sincerely yours,

Lynn Bowley
