---

SunTrust Bank, Middle Georgia and its employees have been vital to the success of our community for almost 100 years. SunTrust supports community organizations and events financially and by allowing its employees to serve in leadership positions. Recently, I learned through Patricia Ballard, a ST officer, of a new organization that provides affordable housing for veterans who were previously homeless. Ms. Ballard was working with this group's leadership to ensure its sustainability and connected them to the Community Foundation. There are countless more examples of the bank and its employees' community leadership making a difference here in Middle Georgia.

I believe that the bank's leadership will continue, and be even stronger, after its merger with BB&T. Please call on me for additional information.

Kathryn Dennis
