The University System of Georgia and SunTrust have worked together for many years, as business associates and community partners. We have met with SunTrust leadership to discuss the merger and believe the strong relationship will continue after the merger. SunTrust shares deep roots with many of our institutions in communities and has supported our student success efforts in multiple ways. We believe the merger will only enhance these relationships and we look forward to many years of working to improve education and quality of life in Georgia. Thank you.
