---

We appreciate the opportunity to comment about SunTrust and our relationship with its people as well as the bank.

SunTrust has been a partner with our United Way for many years. The company is our 15<sup>th</sup> largest contributor to our campaign and has been among the leaders for many years.

The staff leadership is deeply engaged in our community and are champions for nonprofits as well as United Way.

On a national level, the bank is community minded and backs that statement up with time and support.

We are hopeful that SunTrust, as it combines with BB&T, will continue the community engagement, leadership and support we have witnessed and appreciated for many years.

Our sincere thanks to this organization is well justified.

E. Craig Heim

President & CEO
