Dover, NH 03820

To whom it may concern:

Our company, Symscio, is a communications research company based in Dover, NH. Our small business was founded in the fall of 2008 and is minority and veteran-owned. I am happily writing, on behalf Symscio, in support of SunTrust's merger with BB&T.

Symscio has grown more than two-fold since beginning its working relationship with SunTrust in July 2013, and SunTrust has played a significant role in that growth. We view the SunTrust/BB&T merger as one that will provide numerous opportunities to further grow our business.

However, our partnership with SunTrust goes beyond the typical financial benefit. Over the years, our exposure to special projects from SunTrust has resulted in our company's ability to provide new services that we may not have otherwise realized as achievable or in demand. Furthermore, SunTrust's team consistently treats Symscio with a respect, trust and caring that is not common. These values would surely be beneficial to the larger company that would result from the SunTrust/BB&T merger.

Sincerely,

Bruce Aube  
Managing Partner  
Symscio, LLC
