SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0741.

Title: Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, CC Docket 96-98, Second Report and Order and Memorandum Opinion and Order, Second Order on Reconsideration.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 2,000.

Estimated Time Per Response: 1-100 hours per respondent.

Frequency of Response: On occasion reporting requirement, third party disclosure requirement.

Total Annual Burden: 228,750 hours.

Total Annual Cost: \$60,000.

Needs and Uses: In the Second Order on Reconsideration, the Commission resolves and clarifies specific issues regarding the nondiscriminatory access obligations of local exchange carriers. The Commission clarified that, upon request, a LEC shall provide access to its directory assistance services and to its directory listings in any format the competing provider specifies, if the LEC's internal systems can accommodate that format. LEC's must supply updates. In the NPRM, the Commission sought comment on issues arising out of developments in, and the convergence of, directory publishing and directory assistance.

In order to encourage competition in the telecommunications services market by lifting operational barriers to entry, the Commission has: (1) Required LECs to provide dialing parity and nondiscriminatory access to certain services and functionalities; (2) required ILECs to provide public notice of network changes; and (3) established procedures for numbering administration. These information collection requirements are part of an effort to make local dialing and networks, telephone numbers, operator services, directory assistance and directory listings available to all competitors on an equal basis. Implementation plans describing each LEC's proposal(s) to implement toll dialing parity based on LATA boundaries will be provided by the LECs to the state commissions or to this

Commission. Justifications for noncompliance with toll dialing parity deadlines will be provided to the Commission. Directory listings and the public notice of network changes will be provided to third parties. Technical information regarding interconnection and/or access to unbundled network elements will be provided by ILECs to requesting telecommunication carriers. Burden of proof documentation regarding access to a LEC's services and features or dialing delay will be provided to the Commission. Area code relief plans will be provided by state commissions to the central office code administrator(s).

The Commission has concluded in the Second Order on Reconsideration that a LEC shall permit competing providers of telephone exchange service and telephone toll service access to its directory assistance services, including directory assistance databases. The Commission clarified that, upon request, a LEC shall provide access to its directory assistance services, including directory assistance databases, and to its directory listings in any format the competing provider specifies, if the LEC's internal systems can accommodate that format. In addition, LECs must supply updates to the requesting LEC in the same manner as the original transfer and at the same time that it provides updates to itself. These information collection requirements are part of an effort to make directory assistance and directory listings available to all competitors on an equal basis.

Proposal To Renew the Following Currently Approved Collection of Information

Title: Interagency Notice of Change in Control.

OMB Number: 3064-0019.

Frequency of Response: On occasion.

Affected Public: All financial institutions.

Estimated Number of Respondents: 50.

Estimated Time per Response: 30 hours.

Estimated Total Annual Burden: 1,500 hours.

General Description of Collection: The Interagency Notice of Change in Control is submitted regarding any person proposing to acquire ownership control of an insured state nonmember bank. The information is used by the FDIC to determine whether the competence, experience, or integrity of any acquiring person, indicates that it would not be in the interest of the depositors of the bank or in the interest of the public, to permit such persons to control the bank.
