Subject: unfair bank fees

I agree and applaud the proposed new regulations for bank fees. I have often been charged outrageously for overdraft checks because of the bank's processing of checks in order of amounts from high to low. Additionally the bank I deal with subtracts the checks that come in after the previous day's closing before they add the deposits that come in after the previous day closing. This is another way they charge customers inordinate fees for overdrafts. Patricia Newton.
