Subject: overdraft check processing

Dear Sirs or Madams:

I urge you to prohibit the banking practice of processing overdraft checks in order of amount, high-to-low. It is unnecessary for people already under financial stress, and it is mean. I do support the practice of simply limiting the number of overdrafts, so whatever fees are due, they do not mount up and put people in untenable financial situations. Better their overdraft rights be curtailed until future deposits are made. Thank you.
