

SCHEDULE RC-D - TRADING ASSETS AND LIABILITIES

General Instructions

Schedule RC-D is to be completed only by banks filing the FFIEC 031 and 032 report forms that have \$1 billion or more in total assets or \$2 billion or more in par/notional amount of off-balance sheet interest rate, foreign exchange rate, and other commodity and equity contracts.

Banks that (a) regularly underwrite or deal in securities, interest rate contracts, foreign exchange rate contracts, other off-balance sheet commodity and equity contracts, other financial instruments, and other assets for resale (or repurchase), (b) acquire or take positions in such items principally for the purpose of selling in the near term or otherwise with the intent to resell (or repurchase) in order to profit from short-term price movements, or (c) acquire or take positions in such items as an accommodation to customers or for other trading purposes shall report in this schedule the value of such items or positions on the report date. Assets, liabilities, and other financial instruments held for trading shall be consistently valued at fair value.

Do not include in this schedule the carrying value of any available-for-sale securities or of any loans or leases that are held for sale. Available-for-sale securities are generally reported in Schedule RC, item 2.b, and in Schedule RC-B, columns C and D. However, a bank may have certain assets that fall within the definition of "securities" in FASB Statement No. 115 (e.g., nonrated industrial development obligations) that the bank has designated as "available-for-sale" which are reported for purposes of the Report of Condition in a balance sheet category other than "Securities" (e.g., "Loans and lease financing receivables"). Loans and leases held for sale should be reported in Schedule RC, item 4.a, "Loans and leases, net of unearned income," and in Schedule RC-C (including part I, Memorandum item 5).
