[STB Finance Docket No. 34537]

Alliance Terminal Railroad, LLC— Lease and Operation Exemption— Quality Terminal Services, LLC

Alliance Terminal Railroad, LLC (ATR), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to sublease from Quality Terminal Services, LLC (QTS) and operate approximately 12.9 miles of rail line owned by The Burlington Northern and Santa Fe Railway Company (BNSF). There are no milepost designations associated with the rail lines ATR will be subleasing. The rail lines being subleased are located adjacent to BNSF's mainline between milepost 362.2 and milepost 365.0 in Haslet, TX. ATR will also acquire overhead incidental trackage rights over 11 miles of BNSF's main line located between milepost 359.0, at Haslet, and milepost 370.0, at Saginaw, TX.

This transaction is related to STB Finance Docket No. 34538, *Patrick D. Broe and OmniTRAX, Inc.—Continuance in Control Exemption—Alliance Terminal Railroad, LLC*, wherein Patrick D. Broe and OmniTRAX, Inc., seek to acquire control of ATR upon ATR's becoming a Class III carrier.

ATR certifies that its projected revenues as a result of this transaction will not result in the creation of a Class II or Class I rail carrier, and further certifies that its projected revenues will not exceed \$5 million. The transaction was scheduled to be consummated on or shortly after August 24, 2004, the effective date of the exemption.

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke does not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34537, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Karl Morell,

1455 F Street, NW., Suite 225,
Washington, DC 20005.

General Description of Report: This information collection is mandatory. 12 U.S.C. 1828(c) (OCC, FDIC, and OTS), and 12 U.S.C. 1817(j), and 12 U.S.C. 1813(q) (Board). Except for select sensitive items, this information collection is not given confidential treatment. Small businesses, that is, small institutions, are affected.

Abstract: This submission covers a revision to the Agencies' Interagency Biographical and Financial Report. The Agencies use the biographical information to evaluate the competence, experience, character, and integrity of the persons proposed as organizers, senior executive officers, directors, or principal shareholders of depository institutions or their holding companies. The Agencies use the financial information to evaluate the financial ability of those persons. Finally, the Agencies also use this form to evaluate proposed acquisitions.

This submission also covers a revision to the Agencies' Interagency Notice of Change in Control. An individual, a group, or a company that proposes to acquire control of a depository institution or its holding company must submit prior notice of that intent to the appropriate Agency pursuant to the Change in Bank Control Act and the Agencies' applicable regulations.

The Agencies need the information from both of these forms to ensure that the proposed transaction is permissible under law and regulation and is consistent with safe and sound banking practices. For example, the Agencies must consider the financial and managerial resources and future earnings prospects of an institution and its acquirers, directors, and executive management. Accordingly, the Agencies

use the information to evaluate specific individuals' qualifications. Individuals organizing, acquiring control of, or managing a financial institution must provide this information.

This submission also covers the OCC's Satisfaction Survey; Conversion, and Capital sample applications; and various portions to which the OCC is making technical clarifying changes. The OCC sends a Satisfaction Survey to applicants after processing a filing and asks for information about the process. The survey is voluntary, but information received enables the OCC to refine its application process. The Conversion, and Capital sample documents have been reformatted from a letter submission to a numbered question type of submission that will facilitate the OCC's development of an electronic submission. Additionally, the OCC is submitting to OMB for renewal the *Comptroller's Licensing Manual* in its entirety.

This submission also covers the Board's Interagency Notice of Change in Director or Senior Executive Officer (FR 2081b), which is being extended without revision. The FR 2081b is used by an insured depository institution or its parent holding company(ies) to notify the appropriate regulatory agency of a proposed change in the board of directors or senior executive officer of such institution or holding company(ies). A notice of change is required if the depository institution is viewed to be in troubled condition by its primary Federal regulatory agency. The requirement applies to a depository institution or its holding company that is not in compliance with all minimum capital requirements, is in troubled condition or, otherwise, is required by the Board to provide such notices.

Current Actions: On June 9, 2004, the Agencies published in the **Federal Register** (67 FR 32414) a notice on the proposed revisions to these information collections. The comment period expired on August 9, 2004. The Agencies received no public comments, and each Agency is now submitting its request to OMB for approval of the extension, with revision, of these information collections, as proposed.

The Agencies modified certain sections of the Interagency Biographical and Financial Report (report), especially section 5, to improve their ability to evaluate the character and integrity of a filer. The Agencies also amended the form to make it easier to understand the type and scope of information that must be provided. For example, the Agencies made each question in section 5 more descriptive to clarify for filers the circumstances where they should

provide further explanatory information with the report.

In addition, the Agencies made changes to comply with section 508 of the Rehabilitation Act, which requires Federal departments and agencies, when developing and using electronic and information technology, to ensure that the relevant information and technology is accessible to individuals with disabilities. Specifically, the Agencies amended the report to improve the ability of the form to be read by screen reader software applications used by individuals with visual impairments.

The Agencies modified the Interagency Notice of Change in Control to gather relevant information to comply with section 307(c) of the Gramm-Leach-Bliley Act (GLBA). This section of GLBA requires the appropriate Agency to consult with the appropriate state insurance regulator prior to making any determination relating to the affiliation of a depository institution with a company engaged in insurance activities. As a result, the Agencies propose to add an item to the Interagency Notice of Change in Control to collect information regarding the name of an affiliated insurance company, a description of its insurance activities, and the name of the state in which the company is domiciled or in which it has a resident license.

Exception: The OTS requires a company filing for a change in control of a federal savings bank or savings and loan association to use the appropriate holding company application and, therefore, it will not have any company filing this form.

The Agencies made technical corrections to the General Instructions section for both forms to make them uniform with revisions to other recently issued interagency forms and to ensure consistency, where appropriate, with other forms the Agencies use. The Agencies also added definitions for certain essential terms to the General Instructions for the Interagency Biographical and Financial Report to make it easier for filers to determine whether a given request for information applies to them.

Further, the OCC is changing its "General Policies and Procedures" booklet of the Manual by adding questions to its Satisfaction Survey (survey). The OCC sends a survey to applicants after the processing of the filing is final. This survey, which is voluntary, provides the OCC with information that enables it to refine and improve its application process. The additional questions relate to the electronic submission of certain types of

applications and the effectiveness of the electronic filing system. The OCC also is changing to the format of the conversion and capital applications that are part of the "Conversions" and "Capital and Dividends" booklets of the Manual. Previously, the OCC used a letter format. The OCC is changing that format to an application type of filing so that it can accept the submission electronically. The changes to these documents are not material and are technical in nature. These changes are an administrative adjustment, and do not change the requirements on national banks.

Comments: All comments will become a matter of public record. Written comments are invited on:

- a. Whether the information collection is necessary for the proper performance of the Agencies' functions, including whether the information has practical utility;
- b. The accuracy of the Agencies' estimates of the burden of the information collection, including the validity of the methodology and assumptions used;
