Daily Average Trading Volume by Bond Type

Note: The 50 largest municipal issuers based on notional amount of fixed rate, investment grade municipal debt outstanding, as estimated by Citigroup, based on a compilation of data from Bloomberg LP and J.J. Kenny as of May 2014. Municipal securities trading volumes are based upon MSRB-reported trade data for the period from May 13, 2013 through May 12, 2014. Zero coupon municipal bonds have conservatively been included at maturity value, leading to the potential underestimation of trading volumes relative to the par amount of debt outstanding. Amounts outstanding and average ratings sourced from Bloomberg LP.
