FDIC connect does not work well with Windows 10. We had a Safety and Soundness exam in February and a Compliance exam in May. In between these two exams I had my windows upgraded to Windows 10. FDIC connect worked well with my older version of Windows, but locked up every time I uploaded documents with Windows 10 installed. I have to close out of the program and log back in to continue uploading more documents. I am told this is a common problem.

Thank you for your time.

Sincerely,

Robert C. (Bob) Krause
