Subject: [EXTERNAL MESSAGE] April 13, 2020 - Regulatory Capital Rule: Paycheck Protection Program Lending Facility and Paycheck Protection Program Loans; Interim Final Rule; Request for Comments (RIN 3064-AF49)

My banks will not process my application for the PPP because I only have regular savings accounts, not a "Business" account. I am a small independent contractor who receives a 1099 and have been in business for 20 years. How can I apply for the PPP if no one will accept my application?

Someone needs to step in and force the banks to accept applications before the money runs out.
